INTRODUCTORY SECTION

THIS PAGE INTENTIONALLY LEFT BLANK

The Washington Elementary School District is committed to achieving excellence for every child; every day; every opportunity.

December 11, 2012

Citizens and Governing Board Washington Elementary School District No. 6 4650 West Sweetwater Glendale, Arizona 85304

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States of America by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the Comprehensive Annual Financial Report (CAFR) of the Washington Elementary School District No. 6 (District) for the fiscal year ended June 30, 2012.

Management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. The comprehensive annual financial report is presented in three sections: introductory, financial, and statistical.

The District's financial activity for fiscal year 2012 has been audited by CliftonLarsonAllen LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management. Based on the audit, CliftonLarsonAllen LLP has issued an unqualified opinion on the District's financial statements for the year ended June 30, 2012. Their independent auditors' report is located at the front of the financial section of this report.

Following the independent auditors' report, management has provided a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A) which is intended to complement this letter of transmittal. The District's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

The Washington Elementary School District No. 6 was established in 1891 and is one of 58 public school districts located in Maricopa County, Arizona. It provides a program of public education from kindergarten through grade eight. Other supplemental programs are offered such as Head Start, daycare programs providing services before and after school, and other community-based education programs.

Washington Elementary School District operates 32 school sites and three district administrative sites. The District serves approximately 23,000 students in north central Phoenix and eastern Glendale. Enrollment had decreased by over five percent since 2008, but during fiscal year 2012 the enrollment increased slightly. Projections indicate that this trend should continue as the economy improves and previously foreclosed homes are sold in neighborhoods within the district boundaries.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, pupil transportation, management information services, construction and maintenance of District facilities, and nutrition services.

For fiscal year 2011-2012, the District experienced a 22.5 percent decrease in its primary assessed valuation and a 25.3 percent decrease in its secondary assessed valuation. The economy of the District is representative of the economies of the cities that overlap the District. Approximately 98 percent of the District lies within the boundaries of the City of Phoenix with only 2 percent falling within the boundaries of the City of Glendale.

In 2006 the Governing Board and Superintendent initiated the development of a long-range strategic plan for the Washington Elementary School District. A vision and mission were drafted including a set of beliefs and values which were shared at a town hall meeting to solicit input regarding the District needs and goals. Participants of this group included parents, community members, district employees and board members. The identified areas of focus were Student Achievement, Community Relationships, Facility Planning and Usage, Student Safety, Technology, Community Relationships, and Human Resources. Each year specific plans are updated for each area of focus that includes the financial resources needed to accomplish the goals, as well as ways in which to recognize the completion of those goals. In fiscal year 2012 the District began work on the strategic plan related to fiscal responsibility. This plan includes ways in which the District will increase transparency and accountability with the community by utilizing consistent reporting strategies detailing how the District has spent voter-approved funding.

In order to facilitate community outreach, the District works with a Business Advisory Team and a Parent Leadership Team that meets with the Superintendent throughout the year.

BUDGETING SYSTEMS AND CONTROLS

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board.

The Washington Elementary School District utilizes a "Student-Based Budget Process", meaning that schools and students are budget priorities. The budget for staffing and other resources is based on the number of students enrolled at each site and funds are allocated for these needs prior to evaluating the needs for departments. These budgets are set each year based on consistent standards adopted by the Governing Board. Standards are developed and recommended to the Governing Board after receiving input from committees consisting of staff and other stakeholders involved in each particular area.

The Governing Board annually reviews any budget items that are outside the general state budget limits. These items are approved individually after consideration of defined needs of the District and evaluation of any proposed impact to taxpayers in the District. The Governing Board has approved a Debt Management and Special Levy Policy to provide guidance for staff to consider when evaluating the need for additional levies or long-term debt such as bonds.

The District's proposed expenditure budget is presented to the Governing Board for review prior to July 15. The Governing Board is required to hold a public hearing on the proposed budget and to adopt the final budget by no later than July 15. The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General and some Capital Project Funds. The level of budgetary control is established at the individual fund level for all funds. The Governing Board has given staff authorization to exceed subsections of a budget, if needed, with the stipulation that expenditures never exceed the total appropriated budget in a particular fund.

In order to ensure compliance with the legal provisions applicable to the annual appropriated budget, Washington Elementary School District maintains several budgetary controls. Budget-controlled funds are monitored consistently to ensure that schools and departments stay within their allocated budgets, and that expenditures are proper for the designated fund. The Finance Director can at any time reallocate budget capacity between accounts within a fund or from the contingency fund designated for emergencies and other needs that were not identified previously. The workflow for approval of purchases, budget transfers and journal entries has several levels for review before being posted. Budgets for cash-controlled funds are updated automatically within the financial system as revenue is received and these funds are reconciled throughout the year to ensure that cash available is sufficient to meet the appropriated budget.

Although not adopted, an annual revenue budget for all sources is prepared. The expenditure budget can be revised annually in accordance with Arizona Revised Statutes; however the revenue budget is not revised. Therefore a deficit budgeted fund balance can occur when the expenditure budget is increased during a revision. Funds that have over expenditures of budgeted funds have revenue earned throughout the year. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned.

The District's administration is charged with the responsibility of supervising the protection of the District's assets by employing various risk management techniques and procedures to reduce, absorb, minimize or transfer risk. The District carries insurance for general liability, auto liability and workers' compensation. The administration is also responsible for directing the District's benefits program, which includes the administration of health, life and other benefits for all full-time and some part-time employees. These activities are accounted for in the Internal Service Funds.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local Economy

The City of Phoenix enjoys a highly diversified economic base consisting of manufacturing, agriculture, tourism, construction, education, distribution centers, finance and retailing. Tourism is an important income producer. Many world-class hotels and resorts cater to visitors. The city's light rail system, which opened in December 2008, offers a convenient transportation link from the airport to downtown Phoenix, with stops at the convention center and several downtown hotels. The light rail system is scheduled to expand within the next few years to include several miles within the district boundaries. The greater Phoenix area serves as a hub for innovation and entrepreneurs by providing international access for aerospace, high-technology, bioscience, advanced business services and sustainable technologies companies.

The City of Phoenix is the Capitol and largest city of Arizona and is the county seat as well. Phoenix is also the sixth largest city in the nation, with more than 1.4 million residents and growing. The city encompasses an area approximately 519 square miles. The Phoenix metropolitan area is the population and economic activity center of the entire State. Phoenix is one of the leaders in the economics of the Southwestern area of the United States.

Maricopa County is located in the south-central portion of Arizona and encompasses an area of approximately 9,226 square miles. Its boundaries encompass the cities of Phoenix, Mesa, Glendale, Scottsdale, Tempe, Chandler, Peoria, and Gilbert. The County's population is estimated at 3,824,058 or about 60 percent of the total population of the state. Maricopa County has a very wide range of economic sectors supporting its substantial growth. As of June 2012, the unemployment rate in the Phoenix area and Maricopa County was approximately 8.4 percent, slightly higher than the national average of 8.2 percent.

The State of Arizona has been greatly affected by the recent economic downturn. This has resulted in limited growth and declining revenues because of, in part, recent legislative decisions to reduce funding allocations. This has presented a challenge to school districts considering the majority of funding for schools is generated through formulas directed by Arizona Law. Washington Elementary School District utilized several strategies that allowed for a budget balance remaining in fiscal year 2012. This should provide options for the District in the current year as the State continues to struggle with budget concerns. Although the State is currently experiencing increased revenues, there is no indication that previous reductions in funding will be restored in the near future.

Long-term Financial Planning

The District incorporates shared-decision making processes into every aspect of District management and planning. The shared-decision making process allows the input of all stakeholders (to include parents, employees and community members) into the decision-making and financial planning of the District. From these processes, advisory committees are formed to evaluate and make recommendations to the Superintendent in regard to the needs of the District.

One such committee is the Facilities Council. This group of stakeholders began a facilities masterplanning process in 1996 to develop a long-term facilities needs assessment for the District. In the beginning stages of this master facilities plan, the Council considered many factors including an inventory and analysis of existing facilities, projection of future enrollment numbers, creating a vision of the learning environment and several preliminary master plan concepts. This Council has been reorganized to operate at the regional level for a specific focus and input is provided from the regions into the general council that offers recommendation regarding future bonding needs and identified projects district-wide. Future capital plans have been updated to account for changes in population levels and changes in projected enrollment, based on demographic studies.

Although demographic studies illustrate a leveling of student growth over the next few years, the capital plan continues to address aging facilities to meet the needs of all grade configurations, and is consistent with the vision of the learning environment embraced by the stakeholders of the District.

AWARDS AND ACKNOWLEDGMENTS

The Association of School Business Officials (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2011. In addition, the Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2011. In order to be awarded these certificates, the District published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year 2011-2012 certificates.

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the business services and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, we would like to extend our appreciation to the Governing Board for their leadership and support in attaining the highest standards of professionalism regarding the management of the District's finances.

Respectfully submitted,

Dr. Susan J. Cook Superintendent

INDEPENDENT AUDITORS' REPORT

Governing Board of the Washington Elementary School District No. 6 Phoenix, Arizona

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Washington Elementary School District No. 6 (District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Washington Elementary School District No. 6, as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 11, 2012 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the other post employment benefits required supplementary information and budgetary comparison information on pages 13 through 22 and 55 through 58 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Washington Elementary School District No. 6's basic financial statements. The combining and individual nonmajor fund financial statements and schedules and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Clifton Larson Allen LLP

CliftonLarsonAllen LLP

Phoenix, Arizona December 11, 2012

As management of the Washington Elementary School District No. 6 (District), we offer the readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2012. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

Financial Highlights

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$197.7 million (net assets).
- The District's total net assets increased by \$6.9 million. This was due to the District's fiscal policy of spending within the budget limits and the strategy of maximizing the allowable 4 percent of the budget balance for subsequent year contingent availability.
- At the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$44.3 million, a decrease of \$5.2 million in comparison with the prior year. This decrease was largely due to the use of \$7.3 million in bond proceeds received in previous years for planned District projects, offset by \$2.1 million in food service fees and grants (after transfers for indirect costs) exceeding the cost to operate the food service program. Other factors contributing to the decrease are discussed in the financial analysis of District funds contained in this MD&A.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$23.8 million, or 18.8 percent of total General Fund expenditures.
- The District's bonded debt decreased by \$11.9 million (13.4 percent) during the current fiscal year. The decrease was due to regularly scheduled principal payments and the amortization of bond premiums and deferred amounts on refunding.
- Net assets for the Internal Service Funds decreased by \$1.2 million. Operating expenses of \$18.9 million exceeded the operating revenues of \$17.7 million. This was largely due to the Employee Benefit Trust's agreement to absorb a portion of increased health insurance costs since it had assets that exceeded the recommended reserves.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as useful indicators of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements present functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, operation of non-instructional services, and interest on long-term debt.

The government-wide financial statements can be found immediately following this MD&A.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains eleven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Special Projects Funds, and Debt Service Fund, all of which are considered to be major funds. Data from the other eight governmental funds are combined into a single, aggregated presentation.

An operating budget for expenditures is prepared and adopted by the District each fiscal year for the General, Special Revenue, Debt Service, and Capital Projects Funds. Budgetary control is ultimately exercised at the fund level. Budgetary control is maintained through the use of periodic reports that compare actual expenditures against budgeted amounts. The expenditure budget can be revised annually, per Arizona Revised Statutes; however, the revenue budget, once adopted is not revised during the fiscal year. Therefore, a deficit budgeted fund balance may exist in the final amended budget due to the revision of the expenditure budget. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at year-end.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

The basic governmental fund financial statements can be found on pages 25 - 28 of this report.

Proprietary funds. The District maintains internal service funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses its internal service funds to account for its employee benefit trust, property and casualty insurance, workers' compensation, and the District's print shop. Because these services benefit governmental functions, they have been included within governmental activities in the government-wide financial statements. The employee benefit trust, although a legally separate component unit, functions for all employees of the District. Other internal service funds include the Property and Casualty Insurance Fund, which accounts for the financial activity associated with the District's self-insurance program for property and casualty losses; the Workers' Compensation Fund, which accounts for the financial activity associated with the District's print shop.

The internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements.

The basic proprietary fund financial statements can be found on pages 29 - 31 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The fiduciary funds are custodial in nature and do not present results of operations or a measurement focus.

The basic fiduciary fund financial statement can be found on page 32 of this report.

Notes to the basic financial statements. The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 33 - 54 of this report.

Required Supplementary Information Other Than the MD&A. The required supplementary information other than the MD&A found immediately following the notes to the financial statements include the schedule of funding progress for the other postemployment benefit plan and the schedule of revenues, expenditures and changes in fund balance – budget and actual for the General Fund and major special revenue funds. Notes to the required supplementary information follow the budgetary comparison schedules.

Other information. The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information other than the MD&A. Combining and individual fund statements and schedules can be found on pages 59 - 75 of this report.

The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The statistical section can be found on pages 76 - 101 of this report.

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$197.7 million as of June 30, 2012.

By far the largest portion of the District's net assets (66.4 percent) reflects its investment in capital assets (e.g., land, buildings, furniture, equipment and vehicles), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net assets (7.8 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets (25.8 percent) may be used to meet the District's ongoing obligations to its citizens and creditors.

A summary of changes in the District's Statement of Net Assets for the fiscal years ended June 30, 2012 is as follows:

| | Governmental Activities | | | | | |
|---------------------------------|-------------------------|----------------|---------|--|--|--|
| | | | Percent | | | |
| | 2012 | 2011 | Change | | | |
| Current and Other Assets | \$ 91,040,093 | \$ 86,476,458 | 5.3 % | | | |
| Capital Assets | 218,282,314 | 217,937,047 | 0.2 | | | |
| Total Assets | 309,322,407 | 304,413,505 | 1.6 | | | |
| | | | | | | |
| Current Liabilities | 31,810,664 | 21,313,521 | 49.3 | | | |
| Noncurrent Liabilities | 79,859,740 | 92,374,770 | (13.5) | | | |
| Total Liabilities | 111,670,404 | 113,688,291 | (1.8) | | | |
| | | | | | | |
| Net Assets: | | | | | | |
| Invested in Capital Assets, Net | | | | | | |
| of Related Debt | 131,154,280 | 126,084,903 | 4.0 | | | |
| Restricted | 15,370,563 | 15,934,592 | (3.5) | | | |
| Unrestricted | 51,127,160 | 48,705,719 | 5.0 | | | |
| Total Net Assets | \$ 197,652,003 | \$ 190,725,214 | 3.6 | | | |

At the end of the current fiscal year, the District was able to report positive balances in all three categories of net assets. Invested in capital assets, net of related debt increased 4.0 percent. The increase was the net effect of an overall decrease in outstanding debt, current year capital asset additions, less current year depreciation. Capital asset additions are discussed later in this MD&A. Restricted net assets decreased 3.5 percent largely due to a decrease in net assets for debt service (\$1.9 million) and a decrease in net assets for federal and state grants (\$0.6 million), offset by an increase in food services (\$2.1 million). Unrestricted net assets increased 5.0 percent.

Overall, net assets of the District increased \$6.9 million or 3.6 percent. Key elements of this increase are as follows:

| | Governmental Activities | | | | | |
|---|-------------------------|-------------|----|-------------|---------|--|
| | | | | | Percent | |
| | | 2012 | | 2011 | Change | |
| REVENUES | | | - | | | |
| Program Revenues: | | | | | | |
| Charges for Services | \$ | 4,831,178 | \$ | 4,659,178 | 3.7 % | |
| Operating Grants and Contributions | | 48,386,041 | | 50,249,772 | (3.7) | |
| General Revenues: | | | | | | |
| Property Taxes | | 57,336,243 | | 52,881,727 | 8.4 | |
| Grants and Contributions Not Restricted | | | | | | |
| to Specific Programs: | | | | | | |
| State Equalization and Additional State Aid | | 79,839,296 | | 83,310,247 | (4.2) | |
| Investment Earnings | | 611,471 | | 564,347 | 8.4 | |
| Other | | 814,480 | | 957,518 | (14.9) | |
| Total Revenues | | 191,818,709 | | 192,622,789 | (0.4) | |
| | | | | | | |
| EXPENSES | | 05 055 000 | | 00 000 000 | (0.7) | |
| Instruction | | 95,655,933 | | 96,302,960 | (0.7) | |
| Support Services: | | 00 000 040 | | 00 400 070 | (2.2) | |
| Students and Instructional Staff | | 22,683,312 | | 23,438,972 | (3.2) | |
| Administration | | 15,851,740 | | 15,161,986 | 4.5 | |
| Operation and Maintenance of Plant | | 20,505,294 | | 20,006,076 | 2.5 | |
| Student Transportation | | 8,352,478 | | 8,219,151 | 1.6 | |

| Interest on Long-term Debt | | 4,065,351 | | 4,319,857 | (5.9) | |
| Total Expenses | | 184,891,920 | | 184,665,477 | 0.1 | |
| Change in Net Assets | | 6,926,789 | | 7,957,312 | (13.0) | |
| Net Assets - Beginning of Year | | 190,725,214 | | 182,767,902 | 4.4 | |
| Net Assets - End of Year | \$ | 197,652,003 | \$ | 190,725,214 | 3.6 | |

Program revenues, which consist of charges for services, operating grants and contributions and capital grants and contributions, decreased from the prior year by \$1.7 million. The decrease in operating grants and contributions was significantly impacted by the reduction of fiscal stabilization funds provided through the American Recovery and Reinvestment Act. The District received a combined \$4.5 million in fiscal stabilization and education jobs funds in the current year, representing a \$3.2 million decrease from the prior year funding. However, this decrease was offset by increases in other federal grants, including increased funding for IDEA (\$0.3 million), E-rate (\$0.2 million), and Nutrition Services (\$0.8 million). Classroom Site Fund revenue (\$0.5 million) received from the State also increased in fiscal year 2012.

Charges for services increased \$0.2 million. The increase represented a 3.7 percent increase in charges for services over the prior year. The increase was largely due to the addition of a district-sponsored day care program (\$0.5 million) that had previously been sponsored by a third party. This increase in revenue was partially offset by a reduction in administrative fees charged to participants of an intergovernmental agreement (\$0.2 million).

General revenues increased from the prior year \$0.9 million largely due to the net effect of a \$4.5 million increase in property tax revenues and a \$3.5 million decrease in state equalization and additional state aid.

Property tax revenues increased over the prior year by \$4.5 million largely due to the increase in secured tax revenue for current debt service (\$3.8 million) and an increase in adjacent ways (\$0.4 million).

State equalization and additional state aid revenue decreased \$3.5 million. The decrease is comprised of continued reductions in capital funds (\$2.9 million) at the state level and a decrease in student population in fiscal year 2011 that resulted in a reduction to the base support level in fiscal year 2012.

Investment earnings and other revenue did not change significantly from the prior year; however, the increase in investment earnings was due to more cash on deposit with the county treasurer throughout the year.

District expenses increased slightly over the prior year by \$0.2 million. Although expenses did not significantly increase, the District reported a decrease in instructional expenses of \$0.6 million, an overall increase in support services of \$0.6 million and an increase in operation of noninstructional services of \$0.6 million. The decrease in instructional expenses was due to a reduction in staff related to student population. The overall increase in support services was a result of increased costs for contracted services and fuel. The increase in operation of noninstructional services was due to an additional community program.

Interest on long-term debt decreased \$0.3 million due to a decrease in outstanding bonds.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on nearterm inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$44.3 million, a decrease of \$5.2 million in comparison with the prior year. Approximately 53.6 percent of this total amount (\$23.8 million) constitutes unassigned fund balance, which is available for spending at the government's discretion. The remaining fund balance is either in nonspendable form, restricted, committed or assigned to indicate that it is not available for new spending.

At fiscal year end June 30, 2012 fund balances were as follows:

| | | Increase |
|-----------------------------|---------------|----------------|
| | | (Decrease) |
| Fund | Balance | From 2010-11 |
| General Fund | ¢ 00.075.007 | ¢ 0.756.050 |
| | \$ 26,875,887 | \$ 2,756,259 |
| Special Projects Fund | 36,196 | (611,753) |
| Debt Service Fund | 4,420,720 | (1,899,051) |
| Nonmajor Governmental Funds | 12,991,885 | (5,441,176) |
| | \$ 44,324,688 | \$ (5,195,721) |

The General Fund increase in fund balance was mostly due to managing the expenditure cycle to reduce spending and maximizing allowable revenue sources.

Special Projects decreased as a result of using prior year carry forward available from federal and state funding to meet needs in the current fiscal year.

The Debt Service Fund decreased \$1.9 million due to the use of accumulated funds for current debt service. Although property tax revenues increased \$3.6 million, tax rates for debt service are set based on the estimated needs to fund the current and future debt service requirements while taking into account funds available from prior year carry forward.

The Nonmajor Governmental Funds decreased \$5.4 million. The most significant funds accounting for this decrease was the use of \$7.3 million of general long-term debt issued in prior years for various District improvements and construction. The \$7.3 million decrease from the use of bond funds were offset by an increase in food service (\$2.1 million). The food service fund realized more federal funds due to the increase of students qualifying for free and reduced lunch and breakfast, as well as a reduction in charges for indirect costs. Other factors contributing to the decrease were the use of building renewal funds for current year projects; the building renewal fund had a carryover of approximately \$1.0 million from prior years. Due to budget cuts at the state level, the building renewal fund is not currently being funded; therefore we expect to see this fund balance gradually decrease in future years as District projects are completed.

General Fund Budgetary Highlights

Over the course of the year, the District revised the General Fund annual expenditure budget to account for reductions to the general budget limit by the State of Arizona, adjust for enrollment, and to accurately reflect actual expenditures. The difference between the original budget and the final amended budget was a decrease of \$0.6 million. The increase can be briefly summarized as follows:

- \$0.8 million decrease in regular education budgeted expenditures.
- \$0.2 million increase in student transportation budgeted expenditures.

The revenue budget did not change during the fiscal year; however, the District's anticipated revenues for state aid were slightly less than the actual state allocation. As previously discussed, the State appropriates a budget to all Districts based on the current state budget. At the time of the District's budgeting process, the State's allocation was based on an estimate; therefore, accounting for the variance. Property taxes fell short of the budget by \$3.3 million largely due to the delinquency rate for taxes collected.

The District reported a positive variance for budget to actual expenditures as of June 30, 2012. Overall the District reported a 3.3 percent favorable variance from the final budgeted expenditures to actual expenditures. The positive variance was not significant, but was the result of the District's continued efforts for sound financial management. The reason for the larger variances in regular education – instruction, regular education - plant maintenance and special education - instruction is because the District allocates contingency in these areas in the final revision to accommodate potential emergency needs after the final budget revision is approved. Student transportation expenditures were less than budget by \$0.8 million due to the successful implementation of a common dismissal schedule, maximizing ridership on buses, and a reduction in overtime for employees.

Capital Asset and Debt Administration

Capital assets. The District's investment in capital assets for its governmental activities as of June 30, 2012, amounts to \$218.3 million (net of accumulated depreciation). This investment in capital assets includes construction in progress, land, land improvements, buildings and improvements, and furniture, equipment and vehicles. The amount represents a net increase of 0.2 percent from last year. Total depreciation expense for the year was \$8.5 million.

Major capital asset events during the current fiscal year included the following:

- Completion of various land improvements, including playgrounds and parking lots totaling \$1.3 million.
- District-wide building improvements of \$0.6 million.
- \$1.7 million in school buses and school bus improvements.
- \$5.1 million in various district-wide projects currently in progress.

Capital Assets (net) June 30, 2012 and 2011

| | Governmental Activities | | | | |
|-------------------------------------|-------------------------|----------------|--|--|--|
| | 2012 | 2011 | | | |
| Land | \$ 4,411,347 | \$ 4,411,347 | | | |
| Construction in Progress | 5,425,322 | 1,770,683 | | | |
| Land Improvements | 10,470,742 | 8,471,091 | | | |
| Buildings and Building Improvements | 178,790,440 | 183,092,144 | | | |
| Furniture, Equipment, and Vehicles | 19,184,463 | 20,191,782 | | | |
| Total Capital Assets, Net | \$ 218,282,314 | \$ 217,937,047 | | | |

Additional information on the District's capital assets can be found in Note 3.A.4. of this report.

Long-term debt. At the end of the current fiscal year, the District had total bonded debt outstanding of \$77.0 million. All this debt is backed by the full faith and credit of the District. The following is a summary of the District's June 30, 2012 and June 30, 2011 outstanding bonded indebtedness.

Outstanding Bonded Indebtedness June 30, 2012 and 2011

| | Governmental Activities | | | | |
|--------------------------|-------------------------|---------------|--|--|--|
| | 2012 2011 | | | | |
| General Obligation Bonds | \$ 76,965,041 | \$ 88,841,081 | | | |

The District's bonded debt decreased by a net amount of \$11.9 million (13.4 percent) during the current fiscal year. The decrease was due to regularly scheduled principal payments and the amortization of bond premiums and deferred amounts on refunding.

State statutes limit the amount of bonded debt a nonunified school district may issue to 15 percent of its net secondary assessed valuation for Class A bonded debt and the greater of 5 percent of its net secondary assessed valuation or \$1,500 per student count for Class B bonded debt. The current debt limitation for the District can be found on page 93. The District's current outstanding debt was less than the legal debt limit.

Additional information on the District's long-term debt can be found in Note 3.E. of this report.

Economic Factors and Next Year's Budgets and Rates

Many factors were considered by the District's administration during the process of developing the fiscal year 2012-2013 budget. Among them:

- Decrease in assessed values for the 2012 tax year due to recent activity in the housing and mortgage industries. Projections are for the assessed values to level off over the next couple of years and then slowly increase by fiscal year 2014.
- Nominal increase in District student population of 0.45 percent after consistent decreases in the previous three years. This helped offset increases in the expenditure budget without having to reduce programs or staff further.
- Due to the State of Arizona economic and budget issues, the State Legislature continued the previous reductions in funding to school districts for fiscal year 2012-2013.
- Contribution requirements for the Arizona State Retirement System increased 0.4 percent, yet the employee health insurance costs remained relatively constant.
- Continuation of a voter approved sales tax increase which would, in part, fund education through fiscal year 2012-2013.
- The availability of Education Jobs funding to begin the fiscal year.
- Continued commitment to provide full-day kindergarten. The State Legislature eliminated the funding for full-day kindergarten beginning fiscal year 2010-2011.

- The utilization of bond funds to replace aging buses and to renovate facilities in accordance with the Bond Master Plan.
- The elimination of the EPO health plan and implementation of a high deductible health plan with a health savings account (HDHP w/HSA) in an effort to offset anticipated increases in health insurance costs.
- Continuation of a district-wide energy savings plan.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Business and Finance Department, Washington Elementary School District No. 6, 4650 West Sweetwater, Glendale, Arizona, 85304.

WASHINGTON ELEMENTARY SCHOOL DISTRICT NO. 6 RECONCILIATION OF THE BALANCE SHEET OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF NET ASSETS JUNE 30, 2012

| Total Fund Balances for Governmental Funds | | \$ 44,324,688 |
|---|---|----------------|
| Total net assets reported for governmental activities in the statement of net assets is different because: | | |
| Property taxes not collected within 60 days subsequent to fiscal year- end are deferred in the governmental funds. | | 4,791,353 |
| Other receivables not collected within 60 days subsequent to fiscal year-end are deferred in the governmental funds. | | 97,164 |
| Issuance costs on long-term debt are recorded as expenditures in the fund financial and are deferred and amortized over the life of the bond in the government-wide financial statements. | | 406,335 |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. Those assets consist of: | | |
| Governmental Capital Assets Less: Accumulated Depreciation | \$ 342,655,409 (124,373,095) | 218,282,314 |
| Contributions to Other Postemployment Benefits in excess of the actuarial determined contribution rate represent prepaid expenses in the governmental activities and are recorded as expenditures in the governmental funds in the year paid. | | 1,592,185 |
| Long-term liabilities that pertain to governmental funds, including bonds payable, are not due and payable in the current period and therefore are not reported as fund liabilities. All liabilities - both current and long-term - are reported in the Statement of Net Assets. | | |
| General Obligation Bonds (Net of Premiums and Deferred Amount on Refunding) Capital Lease Payable Compensated Absences Payable | \$ (76,965,041) (1,077,934) (1,816,765) | (79,859,740) |
| Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the | | |
| Statement of Net Assets. | | 8,017,704 |
| Total Net Assets of Governmental Activities | | \$ 197,652,003 |

WASHINGTON ELEMENTARY SCHOOL DISTRICT NO. 6 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FISCAL YEAR ENDED JUNE 30, 2012

| Net Change in Fund Balances-Total Governmental Funds | | \$ (5,249,404) |
|--|---|----------------|
| Amounts reported for governmental activities in the statement of activities are different because: | | φ (3,243,404) |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period. | | |
| Expenditure for Capital Assets Loss on Disposal of Assets Depreciation Expense | \$ 8,933,690 (103,664) (8,484,759) | 345,267 |
| The governmental funds report bond proceeds as financing sources, while repayment of bond principal is reported as an expenditure. In the statement of net assets, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, however, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of general obligation bonds and related items is as follows: | | |
| Principal Payments on Bonds Principal Payments on Capital Leases Amortization of Issuance Costs Amortization of Deferred Amount on Refunding Amortization of Premium | 11,790,000 620,822 (61,490) (165,950) 251,990 | 12,435,372 |
| Delinquent and deferred property taxes and grants receivable will be collected subsequent to year-end, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the governmental funds. | | |
| Deferred Revenue - June 30, 2011 Deferred Revenue - June 30, 2012 | 4,519,023 4,888,517 | 369,494 |
| Some expenditures recorded in the governmental fund for contributions to Other Postemployment Benefits were in excess of the actuarial determined contribution rate and represent prepaid expenses to the other postemployment benefit plan in the government-wide financial statements. | | 121,400 |
| Some expenses reported in the statement of activities do not require the use of current financial resources and; therefore, are not reported as expenditures in the governmental funds. | | |
| Change in Compensated Absences Change in Inventory Balances | 18,168 53,683 | 71,851 |
| Internal service funds are used by the District to charge the costs of insurance to individual funds. The net revenue of the Internal Service Funds is reported with governmental activities. | | (1,167,191) |
| Change in Net Assets of Governmental Activities | | \$ 6,926,789 |
| | | |

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Washington Elementary School District No. 6 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB). A summary of the District's more significant accounting policies follows.

A. Reporting Entity

The District is a special purpose government that is governed by a separately elected governing body. It is legally separate from and fiscally independent of other state and local governments. Furthermore, component units combined with the District for financial statement presentation purposes are not included in any other governmental reporting entity. Consequently, the District's financial statements present only the funds and organizational entities for which its elected governing board is financially accountable.

Blended component units - The Washington Elementary School District No. 6 Employee Benefit Trust (Employee Benefit Trust), The Washington Elementary School District No. 6 Workers' Compensation Trust (Workers' Compensation Trust) and the Washington Elementary School District No. 6 Property and Casualty Insurance Trust (Casualty Trust) are each governed by five-member boards appointed by the District's Governing Board. Although legally separate from the District, the Trusts are reported as Internal Service Funds because their sole purpose is to provide self-insurance to the District for losses up to certain limits and to purchase insurance for losses above those limits. Complete financial statements of the Trusts may be obtained at the District's administrative offices.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. As a general rule, the effect of interfund activity has been removed from these statements. *Governmental activities*, which are normally supported by taxes and intergovernmental revenues are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The District had no business-type activities during the fiscal year.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-Wide and Fund Financial Statements (Concluded)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements, the proprietary fund financial statements, and fiduciary funds are reported using the *economic resources* measurement focus and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The District's fiduciary funds only report agency funds and therefore do not report a measurement focus.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting, except expenditures related to compensated absences and claims and judgments, which are recorded only when payment is due. However, since debt service resources are provided during the current year for payment of long-term principal and interest due early in the following year (within one month), the expenditures and related liabilities have been recognized in the Debt Service Fund.

Property taxes, intergovernmental grants and aid, tuition, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. It is described as the Maintenance and Operation Fund by Arizona Revised Statutes (A.R.S.) and is budgeted within five subsections titled regular education, special education, pupil transportation, desegregation, and special K-3 override.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Concluded)

The *Special Projects Fund* is special revenue fund that accounts for the revenues and expenditures of state and federally funded projects.

The *Debt Service Fund* accounts for resources accumulated and used for the payment of long-term debt principal, interest and related costs.

Additionally, the District reports the following fund types:

The *Internal Service Funds* account for the financing of the District's self-insurance for the following: employee benefits, property and casualty liabilities, and workers' compensation. They also account for the financial activity associated with the operation of the District's print shop.

The *Agency Funds* are custodial in nature and do not present results of operations or a measurement focus and are described as follows:

The Student Activities Fund accounts for monies raised by students to finance student clubs and organizations but held by the District as an agent.

The Employee Withholding Fund accounts for unremitted payroll deductions temporarily held by the District as an agent.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the internal service funds are charges to other funds. Operating expenses for the internal service funds include the cost of claims, insurance premiums, administrative expenses and charges for services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, for governmental activities it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, cash and investments held by the State Treasurer, and highly liquid investments with maturities of three months or less from the date of acquisition.

A.R.S. require the District to deposit certain cash with the County Treasurer. That cash is pooled for investment purposes, except for cash in the Bond Building and Debt Service Funds, which is invested separately. As required by statute, interest earned by the Bond Building and Debt Service Fund is recorded in the Debt Service Fund.

A.R.S. authorize the District to invest public monies in the State and County Treasurer's investment pools; U.S. Treasury obligations; specified state and local government bonds; and interest-earning investment contracts such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories.

The State Board of Deposit provides oversight for the State Treasurer's pools, and the Local Government Investment Pool Advisory Committee provides consultation and advice to the Treasurer. The fair value of a participant's position in the pool approximates the value of that participant's pool shares. No comparable oversight is provided for the County Treasurer's investment pool, and that pool's structure does not provide for shares.

2. Property Taxes Receivables

All property taxes receivables are shown net of an allowance for uncollectibles.

The Maricopa County Treasurer is responsible for collecting property taxes for all governmental entities within the County. The County levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May. However, a lien against real and personal property assessed attaches on the first day of January preceding assessment and levy thereof.

3. Intergovernmental Receivable

Intergovernmental receivables are comprised of federal grants and aid (\$4,014,195), state grants and aid (\$70,201), state apportioned classroom site funds (\$441,233), instructional improvement funds due from the state (\$361,779) and state and county equalization and additional state aid (\$25,935,107).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities, and Net Assets or Equity (Continued)

4. Short-Term Interfund Receivables/Payables

During the course of operations, individual funds within the District's pooled cash accounts may borrow money from the other funds within the pool on a short-term basis. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet of the fund financial statements and are eliminated in the preparation of the government-wide financial statements.

5. Inventories and Prepaids

Inventories consist of expendable supplies held for consumption. Inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental activities are recorded as expenses when consumed rather than when purchased and are recorded as expenditures when purchased rather than when consumed in the governmental funds.

Prepaids in the government-wide financial statements represent the District's overfunded portion of the other post employment benefits.

6. Restricted Assets

Certain proceeds of the District's bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net assets because their use is limited by applicable bond covenants.

7. Capital Assets

Capital assets, which include land and improvements, buildings and improvements, construction in progress, furniture, equipment and vehicles, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

Capital assets purchased or acquired are carried at historical cost or estimated historical cost. Contributed assets are recorded at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation on all assets is provided on a straight-line basis over the following estimated useful lives:

| Buildings | |
|-----------------------------------|--|
| Improvements other than buildings | |
| Furniture, equipment and vehicles | |

| 50-80 | years |
|-------|-------|
| 5-20 | years |
| 5-30 | years |

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities, and Net Assets or Equity (Continued)

8. Compensated Absences

The liability for compensated absences reported in the government-wide financial statements consists of unpaid, accumulated leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

9. Short-Term Obligations

Short-term obligations include tax anticipation notes that were issued to cover short-term cash flow needs. The tax anticipation notes are reported in the matured debt principal payable. The matured debt principal payable also includes amounts due early in the next fiscal year on long-term obligations.

10. Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the term of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

11. Net Assets

In the government-wide financial statements, net assets are reported in three categories: net assets invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. Net assets invested in capital assets, net of related debt is separately reported because the District reports all District assets which make up a significant portion of total net assets. Restricted net assets account for the portion of net assets restricted by parties outside the District. Unrestricted net assets are the remaining net assets not included in the previous two categories.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED)

D. Assets, Liabilities, and Net Assets or Equity (Concluded)

12. Fund Balance

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable and spendable fund balances. Spendable fund balances include restricted, committed, assigned and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form, such as inventories, or are legally or contractually required to be maintained intact.

Restricted fund balances are those that have externally imposed restrictions on the usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations. The committed fund balances are self-imposed limitations approved by the Governing Board, which is the highest level of decision-making authority within the District. Only the Governing Board can remove or change the constraints placed on committed fund balances. The governing board must commit or remove commitments from fund balances before the end of the fiscal year through formal board action. Assigned fund balances are resources constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. The Governing Board has authorized the Director of Business Services to make assignments of resources for specific purposes. The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, it is the District's policy to expend restricted resources first, then committed, assigned, and unassigned fund balances.

(The Remainder of This Page Intentionally Left Blank)

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

The District adopts an annual operating budget for expenditures for all governmental fund types (except for the Gifts and Donations Fund) on essentially the same modified accrual basis of accounting used to record actual expenditures. The Governing Board presents a proposed budget to the Superintendent of Public Instruction and County School Superintendent on or by July 5. The Governing Board legally adopts the final budget by July 15, after a public hearing has been held. Once adopted the budget can be increased or decreased only for specific reasons set forth in the A.R.S. All appropriations lapse at year end.

Budgetary control over expenditures is exercised at the fund level. However, the General Fund is budgeted within five subsections (see preceding description of General Fund), any of which may be overexpended with the prior approval of the Governing Board at a public meeting, providing the expenditures for all subsections do not exceed the General Fund's total budget.

Although it is not adopted or published, a budget of revenue from all sources for the fiscal year is prepared by the District; however, the budget is not revised during the fiscal year.

No supplementary budgetary appropriations were necessary during the year.

B. Excess of Expenditures Over Appropriations

Expenditures exceeded appropriations in the following funds:

Debt Service Fund

\$ 199,950

Cash was available to meet all of the overexpenditures listed above.

(The Remainder of This Page Intentionally Left Blank)

NOTE 3 DETAILED NOTES ON ALL FUNDS

A. Assets

1. Deposits and Investments

Deposits and investments at June 30, 2012 consist of the following:

| Deposits | | |
|---------------------------------------|----|-------------|
| Cash on Hand | \$ | 1,540 |
| Cash in Bank | | 2,916,144 |
| Investments | | |
| Cash on Deposit with County Treasurer | | 44,897,347 |
| U.S. Treasury Securities | | 3,685,937 |
| Total Deposits and Investments | | 51,500,968 |
| Less: Restricted Assets | | (8,318,186) |
| Less: Fiduciary Funds | | (241,111) |
| Total Cash and Cash Equivalents | ¢ | 42,941,671 |
| | ψ | 42,341,071 |

Deposits - The carrying amount of the District's deposits at June 30, 2012, was \$2,916,144 and the bank balance was \$3,577,740. The entire bank balance was covered by federal depository insurance.

Investments - At June 30, 2012, the District's investments were reported at fair value. The District's investment in the County Treasurer's investment pools represents a proportionate interest in those pools' portfolios; however, the District's portion is not identified with a specific investment and is not subject to custodial credit risk. The District had certain bond proceeds invested in U.S. government securities. The securities are not subject to custodial credit risk.

Interest rate risk. In accordance with its investment policy, the District manages its exposure to declines in fair values by limiting the average maturity of its investments to one year or less.

Credit risk. In accordance with the District's investment policy, the District only invests in the State or County Treasurer investment pools, U.S. government securities or state or local bonds. The District's cash on deposit with the County Treasurer and U.S. Treasury Securities did not receive a credit quality rating from a national credit rating agency.

Concentration of credit risk. The District does not have a formal investment policy that addresses concentration of credit risk; all investments are recorded with the County Treasurer or is on deposit with the trustee.

NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

A. Assets (Continued)

2. Restricted Assets

Restricted assets at June 30, 2012 consisted of the following:

| Unspent Bond Proceeds | \$ 4,632,249 |
|---|-----------------|
| Investments in U.S. Treasury Securities for Future Debt Service | 3,685,937 |
| Total | \$ 8,318,186 |

3. Receivables

Property taxes are recognized as revenues in the fiscal year they are levied in the government-wide financial statements and represent a reconciling item between the government-wide and fund financial statements. In the fund financial statements, property taxes are recognized as revenues in the fiscal year they are collected and within 60 days subsequent to fiscal year-end. Property taxes not collected within 60 days subsequent to fiscal year-end or collected in advance of the fiscal year for which they are levied are reported as deferred revenues.

Governmental funds report other deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue reported in the governmental funds were as follows:

| | Unavailable | | Unearned | |
|--------------------------------------|-------------|-----------|----------|---------|
| Delinquent Property Taxes Receivable | | | | |
| General Fund | \$ | 4,445,637 | \$ | - |
| Debt Service Fund | | 328,479 | | - |
| Nonmajor Governmental Funds | | 17,237 | | - |
| Grants Receivable | | | | |
| Special Projects Fund | | 18,109 | | 135,285 |
| Other Receivables | | | | |
| General Fund | | 48,055 | | - |
| Nonmajor Governmental Funds | | 31,000 | | - |
| | \$ | 4,888,517 | \$ | 135,285 |

NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

4. Capital Assets

Capital asset activity for the year ended June 30, 2012 was as follows:

| | Beginning Balance | Increases | Decreases | Ending Balance |
|--|----------------------|--------------|----------------|-------------------|
| Governmental Activities: | Dalarioo | | 200.00000 | Dalarioo |
| Capital Assets, Not Being Depreciated: | | | | |
| Land | \$ 4,411,347 | \$- | \$- | \$ 4,411,347 |
| Construction in Progress | 1,770,683 | 5,099,478 | (1,444,839) | 5,425,322 |
| Total Capital Assets, Not Being Depreciated | 6,182,030 | 5,099,478 | (1,444,839) | 9,836,669 |
| Capital Assets, Being Depreciated: | | | | |
| Land Improvements | 16,168,177 | 2,801,711 | - | 18,969,888 |
| Buildings and Improvements | 272,167,658 | 575,753 | - | 272,743,411 |
| Furniture, Equipment, and Vehicles | 39,681,605 | 1,901,587 | (477,751) | 41,105,441 |
| Total Capital Assets, Being Depreciated | 328,017,440 | 5,279,051 | (477,751) | 332,818,740 |
| Accumulated Depreciation for: | | | | |
| Land Improvements | (7,697,086) | (802,060) | - | (8,499,146) |
| Buildings and Improvements | (89,075,514) | (4,877,457) | - | (93,952,971) |
| Furniture, Equipment, and Vehicles | (19,489,823) | (2,805,242) | 374,087 | (21,920,978) |
| Total Accumulated Depreciation | (116,262,423) | (8,484,759) | 374,087 | (124,373,095) |
| Total Capital Assets, Being Depreciated, Net | 211,755,017 | (3,205,708) | (103,664) | 208,445,645 |
| Governmental Activities Capital Assets, Net | \$ 217,937,047 | \$ 1,893,770 | \$ (1,548,503) | \$ 218,282,314 |

Depreciation expense was charged to functions/programs as follows:

| Governmental Activities: | |
|--|-----------------|
| Instruction | \$ 3,500,018 |
| Support Services: | |
| Students | 9,601 |
| Instructional Staff | 7,743 |
| General Administration | 2,606 |
| School Administration | 21,407 |
| Business and Other Support Services | 1,437,425 |
| Operations and Maintenance of Plant | 2,506,762 |
| Student Transportation | 762,948 |
| Operation of Noninstructional Services | 236,249 |
| | \$ 8,484,759 |
| | |

NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

A. Assets (Concluded)

5. Construction Commitments

The District has active construction projects at June 30, 2012 and the commitments with contractors were as follows:

| | Government | Governmental Activities | | | | |
|---|---------------|-------------------------|--|--|--|--|
| Project | Spent-to-Date | Estimated Remaining | | | | |
| Classroom Building Additions and Renovations and Various Site Improvements District Wide | \$ 2,883,554 | \$ 14,376,190 | | | | |

B. Interfund Receivables, Payables and Transfers

As of June 30, 2012, interfund receivables and payables were as follows:

| | Due From | | | | | | |
|--------------|-----------------------------|-----------|-----------------------------------|---------|-------|-----------|--|
| Due To | Special Projects Fund | | Nonmajor Governmental Funds | | Total | | |
| General Fund | \$ | 1,525,530 | \$ | 229,488 | \$ | 1,755,018 | |

The above interfund receivables and payables were recorded to eliminate the cash short-falls in individual funds at June 30, 2012. The District expects to recover the cash short-falls within one year.

Interfund transfers for the year ended June 30, 2012 consisted of the following:

| | | ansfer Out | | | | |
|--------------|-----------------------------|------------|-----------------------------------|---------|-------|-----------|
| Transfer In | Special Projects Fund | | Nonmajor Governmental Funds | | Total | |
| General Fund | \$ | 681,633 | \$ | 501,980 | \$ | 1,183,613 |

NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

B. Interfund Receivables, Payables and Transfers (Concluded)

The transfer from the Special Projects Fund to the General Fund in the amount of \$681,633 and the transfer from the Nonmajor Governmental Funds to the General Fund in the amount of \$501,980 was made to record the District's indirect costs on grants passed through the Arizona Department of Education. The approved state indirect cost rate was 3.57 percent restricted rate and 9.55 percent unrestricted rate. The District did not exceed the approved indirect cost rate on any grants.

C. Obligations Under Capital Leases

The District has entered into a lease agreement as lessee for financing the acquisition of copiers and three 66 passenger buses. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of its future minimum lease payments as of the inception date.

The assets acquired through capital leases are as follows:

| | Go | vernmental |
|--------------------------------|----|-------------|
| Asset: | | Activities |
| Equipment and Vehicles | \$ | 2,749,843 |
| Less: Accumulated Depreciation | | (1,634,845) |
| Total | \$ | 1,114,998 |

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2012, were as follows:

| | Governmental | | | | |
|---|--------------|------------|--|--|--|
| Year Ended June 30 | | Activities | | | |
| 2013 | \$ | 578,527 | | | |
| 2014 | | 578,527 | | | |
| Less: Amount Representing Interest | | (79,120) | | | |
| Present Value of Minimum Lease Payments | \$ | 1,077,934 | | | |

D. Short-Term Obligations

The District issued tax anticipation notes at the beginning of the fiscal year for cash flow purposes. The tax anticipation notes are short-term in nature and due within one year of issuance. At June 30, 2012, the District had \$10,000,000 outstanding at the end of the year and accrued interest of \$59,761. Activity during the year was as follows:

| | Beginning of Year |) | Increases | Decreases | End of Year | |
|--|----------------------|---|---------------|-----------|----------------|--|
| Governmental Activities: Tax Anticipation Notes Payable | \$ | - | \$ 10,000,000 | \$- | \$ 10,000,000 | |

NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

E. Long-Term Obligations

The District has long-term bonds payable issued to provide funds for the acquisition and construction of major capital facilities. The District has also issued debt to refund earlier obligations with higher interest rates. Compensated absences are paid by the applicable fund where each employee is regularly paid, primarily the General Fund.

During the year ended June 30, 2003, the District issued \$3,920,000 in qualified zone academy bonds (QZAB). Under the QZAB program, the District is required to repay principal only since the interest is paid by the financial institution that provided the bonds to the District. The financial institution receives a tax credit from the Federal government in lieu of the interest payments. During the fiscal year 2002-03, the District used \$1,851,974 to purchase a zero coupon Fannie Mae Strip security maturing August 1, 2016. The security's maturity value is \$3,920,000, and will be used to pay the outstanding QZAB principal. The security is guaranteed as to principal and interest by the United States of America and by Fannie Mae.

| Purpose | Interest Rates (%) | Maturity Dates | Amount Outstanding |
|---|-----------------------|----------------|-----------------------|
| Governmental Activities: General Obligation Bonds Payable: | | | |
| Refunding Bonds, Series 2002; original issue \$24,175,000 | 5.375 | 7/1/13-16 | \$ 19,175,000 |
| Refunding Bonds, Series 2002, Series B; original issue \$23,270,000 | 5.375 | 7/1/13-15 | 8,260,000 |
| School Improvement Bonds, Project of 2001, Series B; original issue \$18,000,000 | 3.60-5.00 | 7/1/13-17 | 11,150,000 |
| Refunding Bonds Series 2004; original issue \$35,030,00 | 5.00-5.25 | 7/1/13-17 | 18,615,000 |
| School Improvement Bonds, QZAB; original issue \$3,920,000 | 0.00 | 08/01/16 | 3,920,000 |
| School Improvement Bonds, Project of 2001, Series C; original issue \$11,640,000 | 4.125 | 7/1/13-17 | 5,275,000 |
| School Improvement Bonds, Project of 2010, Series A; original issue \$10,000,000 | 3.75-4.125 | 7/1/18-22 | 10,000,000 |
| Total General Obligation Bonds Payable | | | \$ 76,395,000 |

General obligation bonds currently outstanding are as follows:

NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

E. Long-Term Obligations (Concluded)

Changes in long-term obligations for the year ended June 30, 2012 are as follows:

| | Beginning of Year | Increases | Decreases | End of Year | Due within One Year |
|--------------------------|----------------------|------------|-----------------|----------------|------------------------|
| Governmental Activities: | | | | | |
| Bonds Payable: | | | | | |
| General Obligation Bonds | \$ 88,185,000 | \$- | \$ (11,790,000) | \$ 76,395,000 | \$ 12,225,000 |
| Deferred amount on: | | | | | |
| Refunding | (995,703) | - | 165,950 | (829,753) | (165,950) |
| Premium | 1,651,784 | - | (251,990) | 1,399,794 | 251,990 |
| Total Bonds Payable | 88,841,081 | - | (11,876,040) | 76,965,041 | 12,311,040 |
| Other Liabilities: | | | | | |
| Capital Lease | 1,698,756 | - | (620,822) | 1,077,934 | 526,194 |
| Compensated Absences | 1,834,933 | 986,014 | (1,004,182) | 1,816,765 | 751,511 |
| Total Other Liabilities | 3,533,689 | 986,014 | (1,625,004) | 2,894,699 | 1,277,705 |
| Total Debt | \$ 92,374,770 | \$ 986,014 | \$ (13,501,044) | \$ 79,859,740 | \$ 13,588,745 |

Debt service requirements on long-term debt at June 30, 2012 are as follows:

| Years | Principal | | Interest |
|---------|------------------|----|------------|
| | | | |
| 2013 | \$ 12,225,000 | \$ | 3,522,438 |
| 2014 | 12,775,000 | | 2,932,806 |
| 2015 | 13,310,000 | | 2,281,994 |
| 2016 | 13,900,000 | | 1,614,844 |
| 2017 | 14,185,000 | | 897,344 |
| 2018-22 | 10,000,000 | | 1,182,500 |
| Totals | \$ 76,395,000 | \$ | 12,431,926 |

In prior years, the District defeased certain general obligation bonds by placing amounts in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's governmental activities of the statement of net assets. At June 30, 2012, \$3,565,000 of bonds outstanding are considered defeased. The District defeased the debt to reduce its future interest requirements in the outstanding debt, increase its debt limit and reduce future property taxes.

NOTE 3 DETAILED NOTES ON ALL FUNDS (CONCLUDED)

F. Fund Balance Classifications of Governmental Funds

The District has classified its fund balances as follows:

| | General Fund | | Special Projects Funds | | Debt Service Fund | Nonmajor Governmental Funds | Total Governmental Funds | |
|----------------------------|-----------------|----|------------------------------|----|-------------------------|-----------------------------------|--------------------------------|--|
| Fund Balances: | | _ | | | | | | |
| Nonspendable: Inventory | \$ 648,293 | \$ | - | \$ | - | \$ 99,789 | \$ 748,082 | |
| Restricted: | | | | | | | | |
| Classroom Site | - | | - | | - | 211,745 | 211,745 | |
| Instructional Improvement | - | | - | | - | 693,219 | 693,219 | |
| Special Projects | - | | 36,196 | | - | - | 36,196 | |
| Food Service | - | | - | | - | 6,271,629 | 6,271,629 | |
| Designated Donations | 249,987 | | - | | - | - | 249,987 | |
| Civic Center | - | | - | | - | 356,490 | 356,490 | |
| Community School | - | | - | | - | 1,190,720 | 1,190,720 | |
| Extracurricular Tax Credit | - | | - | | - | 644,251 | 644,251 | |
| Other Special Revenues | - | | - | | - | 99,390 | 99,390 | |
| Capital Projects | - | | - | | - | 3,424,652 | 3,424,652 | |
| Debt Service | | | - | | 4,420,720 | - | 4,420,720 | |
| Total Restricted | 249,987 | | 36,196 | | 4,420,720 | 12,892,096 | 17,598,999 | |

| Unassigned | 23,777,607 | _ | - | | - | - | 23,777,607 | |
| Total Fund Balance | \$ 26,875,887 | \$ | 36,196 | \$ | 4,420,720 | \$ 12,991,885 | \$ 44,324,688 | |

NOTE 4 OTHER INFORMATION

A. Risk Management

The District is self-insured for potential loss due to property and liability claims. The District established a Property and Casualty Trust Fund, recorded as an internal service fund, to account for and finance risks of loss related to property and liability claims. Under this program, the Property and Casualty Trust Fund provides coverage up to a maximum of \$100,000 per claim on property and general liability. Coverage in excess of the maximum is provided by a re-insurance policy that is purchased by the trust funds.

The District is self-insured for Workers' Compensation claims. The District established a Workers' Compensation Trust Fund, reported as an internal service fund, to account for and finance risks of loss related to claims for on-the-job injuries to employees. Under this program, the Workers' Compensation Fund provides coverage up to a maximum of \$250,000 per claim. Coverage in excess of the maximum is provided by a re-insurance policy that is purchased by the trust funds.

The District is self-insured for risks of loss related to employee health and accidents. The District established an Employee Benefit Trust Fund, reported as an internal service fund, to account for risks of loss. Under this program, the Employee Benefit Trust Fund provides coverage up to a maximum of \$150,000 per claim. Coverage in excess of the maximum is provided by a re-insurance policy that is purchased by the trust funds.

Liabilities for claims are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not yet reported (IBNR's). The result of the process to estimate the claims liability is not an exact amount as it depends on many factors, including inflation, changes in legal doctrines, and damage awards. Accordingly claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. An excess coverage insurance policy covers individual claims in excess of the amounts specified above. Settlements have not exceeded coverage for each of the past three fiscal years.

Changes in the balances of claims liabilities during the past two fiscal years are as follows:

| | Employee Benefit Trust | | | Workers' Compensation | | | | Property and Casualty Insurance | | | |
|---|------------------------|--------------|------|--------------------------|------|-----------|----|------------------------------------|-----|----------|--|
| | 2012 | 2011 | | 2012 | 1150 | 2011 | | 2012 | nsu | 2011 | |
| Beginning of Fiscal Year Claims Incurred and | \$ 1,538,000 | \$ 1,760,000 | \$ | 981,602 | \$ | 1,066,399 | \$ | 269,740 | \$ | 172,409 | |
| Changes in Estimate | 14,551,248 | 13,537,416 | | 808,159 | | 528,326 | | 95,158 | | 190,456 | |
| Claims Paid | (14,655,248) | (13,759,416) | | (758,069) | | (613,123) | | (106,337) | | (93,125) | |
| Fiscal Year-End | \$ 1,434,000 | \$ 1,538,000 | \$ ´ | 1,031,692 | \$ | 981,602 | \$ | 258,561 | \$ | 269,740 | |

NOTE 4 OTHER INFORMATION (CONTINUED)

B. Contingent Liabilities

Lawsuits - The District is a defendant in various lawsuits. In the opinion of the District's attorney, the outcomes of these lawsuits are not presently determinable and would not adversely affect the financial condition of the District.

Ground Lease - In January 2003, the District executed a \$7.0 million ground lease. The District granted a leasehold interest in a parcel of property to a bank (Trustee). The Trustee, in turn, leased the property to the Arizona School Facilities Board (SFB) by which the SFB is obligated to make lease payments to the Trustee, subject to receiving legislative appropriations, until the obligation to the Trustee is satisfied. Once the obligation to the Trustee is satisfied, all rights, title and interest in the property (land and buildings) become the District's. However, if legislative appropriations are not received, the SFB is relieved of any subsequent obligation under the lease and the obligation is considered in default. In the event of default, the leases shall automatically terminate and the District agrees that it shall promptly surrender possession of the property to the Trustee. However, the District has the option to assume payments on behalf of the SFB to ensure the facilities do not revert back to the lessor.

C. Subsequent Events

Subsequent to June 30, 2012, the District entered into a \$392,246 long-term capital lease agreement for the acquisition of three buses. Three annual principal and interest payments are due beginning October 2012.

In July 2012, the District issued \$12.0 million in tax anticipation notes to cover short-term financing for operations. The tax anticipation notes will be repaid by property taxes and equalization revenues received during fiscal year 2012-13.

In July 2012, the Governing Board authorized the issuance and sale of \$20.0 million in Class B bonds of the \$55.0 million that where authorized, but not issued, from the 2010 School Improvement Bond.

D. Retirement Plans

Arizona State Retirement System

Plan Descriptions - The District contributes to a cost-sharing, multiple-employer defined benefit pension plan; a cost-sharing, multiple-employer defined benefit health care plan; and a cost-sharing, multiple-employer defined benefit long-term disability plan, all of which are administered by the Arizona State Retirement System. The Arizona State Retirement System (through its Retirement Fund) provides retirement (i.e., pension), death, and survivor benefits; the Health Benefit Supplement Fund provides health insurance premium benefits (i.e., a monthly subsidy); and the Long-term Disability Fund provides long-term disability benefits. Benefits are established by state statute. The System is governed by the Arizona State Retirement System Board according to the provisions of A.R.S. Title 38, Chapter 5, Article 2.

NOTE 4 OTHER INFORMATION (CONTINUED)

D. Retirement Plans (Concluded)

The System issues a comprehensive annual financial report that includes financial statements and required supplementary information. The most recent report may be obtained by writing the System, 3300 North Central Avenue, P.O. Box 33910, Phoenix, AZ 85067-3910 or by calling (602) 240-2000 or (800) 621-3778.

Funding Policy - The Arizona State Legislature establishes and may amend active plan members' and the District's contribution rates. For the year ended June 30, 2012, active plan members were required by statute to contribute at the actuarially determined rate of 10.74 percent (10.50 percent for retirement and 0.24 percent for long-term disability) of the members' annual covered payroll and the District was required by statute to contribute at the actuarially determined rate of 10.74 percent (9.87 percent for retirement, 0.63 percent for health insurance premium, and 0.24 percent for long-term disability) of the members' annual covered payroll. Contributions for June 30, 2012 and the two preceding years were as follows:

| | Retirement Fund | | alth Benefit Ipplement Fund | ng-Term Disability Fund |
|----------------------|--------------------|-----------|-----------------------------------|-------------------------------|
| Years Ended June 30, | | | | |
| 2012 | \$ | 9,525,821 | \$ 608,031 | \$ 231,631 |
| 2011 | | 8,917,383 | 583,935 | 247,430 |
| 2010 | | 8,025,627 | 635,030 | 385,360 |

E. Other Postemployment Benefits

The cost of postemployment healthcare benefits, from an accrual accounting perspective, similar to the cost of pension benefits, should be associated with the period in which the cost occurs, rather than in the future year when it will be paid. The District implemented the provisions of GASB Statement No. 45 during the fiscal year ended June 30, 2008 and is recognizing the cost of postemployment healthcare in the year the employee services are received, the accumulated liability from prior years, and is providing information useful in assessing potential demands on the District's future cash flows. The remaining amortization period as of June 30, 2012 is 7 years.

NOTE 4 OTHER INFORMATION (CONTINUED)

E. Other Postemployment Benefits (Continued)

Plan Description

The District reimburses premium amounts to eligible employees that retired from the District between July 1, 1996 to July 1, 2005, and who are enrolled in an Arizona State Retirement System (ASRS) retiree medical plan for postretirement insurance (medical, dental and life) benefits (OPEB), in accordance with the District's Early Retirement Program. The District reimburses eligible employees the difference between the subsidy provided by the ASRS and the cost for the least expensive medical/dental plan offered by the ASRS. The reimbursement is available to all employees who retired from the District on or after attaining age 50 with at least 25 years of full-time employment or age 55 with 10 years of service. The program does not cover dependents or spouses. The plan terminates at the end of the fifteenth year from the date the employee retires from the District or at the beginning of the month in which the employee reaches age 65, whichever comes first.

The program was discontinued as of June 30, 2005. The District has a contractual responsibility to provide these benefits based on policy adopted and defined by the Governing Board. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established for the plan. However, all employees who retired prior to June 30, 2005 are eligible for the postemployment benefits if they are enrolled in the ASRS medical or dental plans.

Benefits Provided

The District provides postretirement insurance (medical, dental and life) benefits (OPEB), in accordance with the District's Early Retirement Program, to eligible employees who retired from the District on or after attaining age 50 with at least 25 years of full-time employment or age 55 with 10 years of service. Currently, 109 retirees meet those eligibility requirements.

| Retirees Receiving Benefits | 109 |
|-----------------------------|-----|
| Active Employees | |
| Total | 109 |

Funding Policy

For each eligible retiree, the District makes monthly contributions to pay for the costs of insurance premiums. During the fiscal year ended June 30, 2012, the District reimbursed no more than \$501.61 per month. The expenditures are recorded on a reimbursement basis. During the year ended June 30, 2012, the District contributed \$624,973 for all eligible retirees.

NOTE 4 OTHER INFORMATION (CONTINUED)

E. Other Postemployment Benefits (Continued)

Annual OPEB Costs and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost for each plan is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities over a period not to exceed 10 years. The District's annual OPEB cost for the current year and the related information for the plan is as follows at June 30, 2012:

| Annual Required Contribution | \$ 346,912 |
|--|-------------------|
| Interest on Net OPEB Obligation | (66,185) |
| Adjustments to Annual Required Contributions | 222,846 |
| Annual OPEB cost | 503,573 |
| Contributions Made | 624,973 |
| Decrease in Net OPEB Obligation | (121,400) |
| Net OPEB Obligation - Beginning of Year | (1,470,785) |
| Net OPEB Obligation - End of Year | \$ (1,592,185) |

The District has overfunded the OPEB obligation and reports the overfunded amount as a prepaid asset in the government-wide financial statements. The District's annual OPEB costs, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the current and prior years are as follows:

| Fiscal Year | | Annual | E | mployer | Pe | rcent | Net OPEB |
|----------------|----|----------|----|-------------|-------------|-------|------------|
| Ended June 30, | 0 | PEB Cost | Co | ntributions | Contributed | | Overfunded |
| 2010 | \$ | 470,909 | \$ | 724,008 | | 154% | 1,282,385 |
| 2011 | | 503,573 | | 691,973 | | 137% | 1,470,785 |
| 2012 | | 503,573 | | 624,973 | | 124% | 1,592,185 |

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the status of the plan and the annual required contributions for the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

NOTE 4 OTHER INFORMATION (CONCLUDED)

E. Other Postemployment Benefits (Concluded)

Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan understood by the employer and plan members) and include the type of benefits in force at the valuation date and the pattern of sharing benefits between the District and plan members at that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions used for the current valuation are as follows:

| Actuarial Valuation Date |
|-------------------------------|
| Actuarial Cost Method |
| Amortization Method |
| Remaining Amortization Period |
| Asset Valuation Method |

Actuarial Assumptions: Investment Rate of Return Healthcare Trend Rate Medical Cost June 30, 2011 Entry Age Normal Closed 10-Year Level Dollar Amortization 7 Years as of June 30, 2011 No Assets Held in an Irrevocable Trust

4.5% 1% Increase 5.50 - 9.00% Increase

Funded Status and Funding Progress

As of June 30, 2011, the most recent actuarial valuation, the plan was 0% funded as the District does not account for other postemployment benefits within a trust. The actuarial accrued liability for benefits was \$2.2 million, and the actuarial value of assets was \$0, resulting in an unfunded liability (UAAL) of \$2.2 million. There is no covered payroll as all participants of the plan are retirees of the District. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

WASHINGTON ELEMENTARY SCHOOL DISTRICT NO. 6 NOTES TO REQUIRED SUPPLMENTARY INFORMATION OTHER THAN MD&A FISCAL YEAR ENDED JUNE 30, 2012

NOTE 1 OTHER POST EMPLOYMENT BENEFIT PLAN

The District implemented GASB Statement No. 45 for the fiscal year ended June 30, 2008. The District conducts an actuarial valuation every other year beginning in the fiscal year 2007. An actuarial valuation was completed for fiscal year 2011.

NOTE 2 BASIS OF ACCOUNTING

The General Fund and Special Projects budgetary comparison schedules are prepared on the budgetary basis of accounting. See Note 3 for a reconciliation of the General Fund Schedule of Revenues Expenditures and Changes in Fund Balances Budget to Actual to the Statement of Revenues, Expenditures and Changes in Fund Balances.

NOTE 3 BUDGETARY COMPARISON SCHEDULE RECONCILIATION

For external reporting purposes, the General Fund includes revenues, expenditures, other financing sources, and uses and fund balances of other internally maintained funds. The General Fund, however, is budgeted based on the internally maintained General Fund. Therefore the following reconciliation is necessary to reconcile the General Fund Budgetary Comparison Schedule to the Statement of Revenues, Expenditures and Changes in Fund Balances.

In addition, prepaid insurance is budgeted as a current year expenditure. The adjustments column in the following reconciliation includes \$856,031 in expenditures for prepaid insurance and represents a reconciling item between the General Fund Budgetary Comparison Schedule to the Statement of Revenues, Expenditures and Changes in Fund Balances.

| | Exp | Statement of Revenues benditures and anges in Fund Balances | A | Adjustments | Schedule of Revenues Expenditures and Changes in Fund Balance - B to A | | |
|--|-----|---|----|--------------|--|-------------|--|
| Revenues | \$ | 127,942,029 | | (10,587,000) | \$ | 117,355,029 | |
| Expenditures | | 126,418,721 | | (7,226,923) | | 119,191,798 | |
| Excess (Deficiency) of Revenues Over Expenditures | | 1,523,308 | | (3,360,077) | | (1,836,769) | |
| Other Financing Sources and (Uses) | | 1,183,613 | | 2,616,387 | | 3,800,000 | |
| Net Change in Fund Balance | | 2,706,921 | | (743,690) | | 1,963,231 | |

Combining and Individual Fund Statements and Schedules THIS PAGE INTENTIONALLY LEFT BLANK

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Classroom Site Fund - accounts for the revenues and expenditures of State apportioned educational sales tax monies.

Instructional Improvement Fund - accounts for revenues and expenditures for State apportioned Indian Gaming monies.

Food Service Fund - accounts for the financial operations of preparing and serving regular and incidental meals and snacks in connection with school functions.

Other Special Revenue Fund - accounts for the revenues and expenditures of the following activities or objectives: civic center, community school, extracurricular activity fee tax credit, fingerprinting, textbooks, and grants and gifts to teachers.

CAPITAL PROJECTS FUNDS

Adjacent Ways Fund - accounts for monies received to finance such improvements as public streets or alleys adjacent to school property.

Bond Building Fund - accounts for monies received from voter-approved bond issues that are used to acquire sites, construct school buildings, supply school buildings with furniture and apparatus, improve school grounds, and purchase pupil transportation vehicles.

Gifts and Donations Fund - accounts for gifts and donations to be expended for capital acquisition.

Building Renewal Fund - accounts for monies received from the School Facilities Board that are used for infrastructure or for major upgrades, repairs, or renovation to areas, systems, or buildings that will maintain or extend their useful life.

STATISTICAL SECTION

This section of the Washington Elementary School District No. 6's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

See the table of contents for page numbers of the schedules that encompass the above sections.

- 1) No description or guidelines were provided to determine how to classify positions into each of the categories or subcategories listed above.
- 2) The sub-categories are very broad and do not fully represent every position (e.g. finance coordinator was classified as Clerical/Secretarial).
- 3) This data is representative of PCS as of June 30th for each year provided and includes both vacant and filled positions.
- 4) Although the categorization file has been completed and is expected to be used in future years, there are still many unanswered categorization questions. Answers to these questions may affect categorization process for future years and as a result may create percentage increases and decreases in certain categories strictly due to the change in categorization concepts/methodologies.

Note: Coding of positions may differ based on interpretation.
