

WELCOME LETTER

Dear Students and Parents,

Welcome to Washington Elementary School. This handbook has been prepared for you to use as a reference for important school information. Working together, we can provide an enriching educational experience for all our students. Please take time to read this handbook carefully.

Washington is a K-6 grade school that provides regular and special education programs. We offer an excellent reading and language arts curriculum, which includes phonics, basal readers, children's literature studies and oral/written communication skills. Our students are engaged in math and technology through hands-on learning, practical problem-solving and computer instruction. In addition to a full academic curriculum, Washington Elementary also offers substance abuse, gang and violence prevention programs, supervised after-school activities and an active, service-oriented Student Council.

Special Education programs include preschool through sixth grade cross categorical/self-contained classes with music therapy, adaptive PE, speech therapy, occupational and physical therapy available when appropriate. Other services provided include differentiated instruction for resource learning disability, gifted, and English language learners, counseling, Title I reading skills tutoring, social work and psychological testing.

Through the 21st Century Community Learning Center program there are English as a second language classes offered for adults, parenting classes, and after-school classes and activities for students. Other programs include Head Start Office for 4-year-old children (602-347-2206) and on-campus extended day (day care) for school-age children (602-347-3415).

During the 2012-2013 school year, we will continue to focus on academic excellence for all students with emphasis on character education and respect for all. You have an important role in your children's education. We urge you to become involved with the school and support its efforts to meet your children's academic needs.

Sincerely,

Washington Elementary School Staff

Leaving School Before Dismissal

A parent or guardian must sign students out in the health office when a student needs to leave before the regular dismissal time. Only a person whose name is listed on the student information form may pick up any student. A photo ID is required as proof of identity. To protect the safety of students, no child will be allowed to leave the school grounds during school hours with anyone except the person who has legal custody of the child or a person authorized in writing by the parent or legal guardian. Before a student is removed, the per-

son seeking to remove the child must present evidence of proper authority to the satisfaction of the principal. To avoid any conflict, please have any person or persons who have the authority to pick up your child listed on the back of his or her emergency card in the office. Students will not be released early if the request is made within 30 minutes of dismissal. Any changes to student transportation must be made 15 minutes prior to dismissal.

Attendance/Truancy

In order to assure students are successful and meet current state legislation, which requires all students to attend 90% of the school year, WESD has a Truancy Prevention Unit (TPU). The TPU will work in conjunction with the City Justice Courts to identify students who are chronically absent or are truant.

When a student reaches five unexcused/unverified trancies or 10 total absences, the school will make a referral to the TPU for appropriate actions (see District guidelines). In order to avoid this eventuality, there are several precautions to take: (1) reinforce being on time and good attendance, (2) call the school each time a student will be late or absent, (3) present any medical documentation to the nurse and/or attendance clerk if illness will be a consistent, foreseeable issue.

A letter will be sent by the school to the families of students who are approaching or pass the midway point for unexcused absences, excused absences and tardies. Parent cooperation is of the utmost importance in assuring student success.
