

8/19/22

Dear Moon Mountain Families,

We are so excited to announce that this year our school will be launching a new initiative that will help enhance the already amazing climate and culture at Moon Mountain.

Starting this year, our school will be implementing the “House System” in which every student and staff member will take part in to create a strong community of learners. Through this initiative, each student will be sorted into a house. These houses will have students of all grade levels in them, as well as, a variety of staff members. Students and staff will work together throughout the year to build strong bonds and relationships that will allow them to feel as if they truly know all the staff and students in our school and that we are united as one.

Each house represents a specific character trait and will work together to represent their trait with pride. Houses will meet throughout the year to participate in team bonding activities, work on character development, and complete special projects together.

Students will be earning points for their houses. Points are a way that we will reinforce the positive behavior that our amazing students show. There will even be a friendly house competition between all the houses to see who will be our eventual “House Champion” for the school year.

We encourage you to participate in this experience as well. Ask your children about their house, encourage them to show pride in their house by wearing house colors, ask your child about the character focus of the month or ask your child about their house activities. Our school community is not just the students and staff, but you, the parents, as well!

We look forward to working with you to grow our community.

Fondly,

Dawna Dohogne

Principal
