III. INFORMATION / DISCUSSION ITEMS

A. Northwest Light Rail Extension Update
Dr. Cook introduced Ms. Carla Kahn, Valley Metro Community Outreach Coordinator who, in turn, introduced Mr. Albert Santana, City of Phoenix Light Rail Administrator, to provide an update regarding the Northwest Light Rail Extension.

Mr. Santana reviewed the Northwest Light Rail Extension project background. He stated the project was placed on hold in 2009 and work would begin in January 2013 with completion projected for late 2015/early 2016.

Mr. Santana introduced Mr. Howard Steere, Valley Metro Community Relations Manager, who presented the construction scope of work.
Mr. Steere reintroduced Ms. Carla Kahn, Valley Metro Community Outreach Coordinator, who reviewed the safety campaign for schools and students. Ms. Kahn advised that Valley Metro will work with schools to reach students, parents, teachers, and administrators; and will provide materials, e.g., posters, bookmarks, activity books, etc.

Mr. Adams thanked the presenters and asked where the Metro Light Rail line would go after ending at 19th Avenue and Dunlap Avenue. Mr. Steere replied that the approved Phase II project would go west on Dunlap Avenue and north on 25th Avenue to Mountain View Road. Mr. Steere advised that a study was being conducted to determine the next phase after the completion of Phase II.

Mr. Jahneke asked if Spectrum Mall had seen an increase in business since the light rail was completed. Mr. Steere responded that Spectrum Mall had reported increased business patronization as a result of the light rail.

Mrs. Lambert stated that she had attended several of the light rail community meetings the past several years and appreciated that they were always open and listened to the community concerns. Mrs. Lambert expressed concern regarding students who walk to school along the construction route. Mr. Steere stated that the safety of the students was a major concern. Mr. Santana stated that the City of Phoenix was a major partner of the light rail project and wanted to ensure the safety of its citizens. The Business Access/Safety Coordinator position was created to work with the construction project staff to ensure the safety of citizens. Mr. Santana advised that safe routes had been planned for students walking to school along the construction route. Mr. Santana will meet with each principal of the affected schools to inform them of the safe routes for students.

Mrs. Lambert expressed concern for the businesses during the light rail construction and how it would impact their patronage. Mr. Santana advised that the City of Phoenix had been having monthly meetings with the business community affected by the light rail construction and was trying to find creative ways to encourage the community to support the local businesses affected by the construction. Mrs. Lambert thanked Mr. Santana for the City’s outreach in working with the community and the schools.

Ms. Graziano shared the following:

- Appreciated that during the Central Avenue light rail construction, business access was labeled.
- Thanked everyone involved with the Metro Light Rail for the presentation and the communication to the affected schools.
- Thanked everyone involved with the Metro Light Rail groundbreaking celebration and appreciated the information provided to the public so they know what to expect.
- Appreciated the support for the local businesses affected by the Metro Light Rail Extension.

Mr. Maza thanked everyone for the presentation and information provided.
B. Information on Performance Contracting for Schools

Dr. Cook advised the Board that the District had been investigating an alternative method of procurement called performance contracting which was allowed through Arizona Revised Statute 15-213.01. Dr. Cook introduced Ms. Cathy Thompson, Director of Business Services, who provided information on performance contracting for schools.

Ms. Thompson advised the Board that energy savings performance contracts (ESPCs) allow school districts to accomplish energy savings projects without up-front capital costs and without allocating bond dollars or other capital funds for them. The energy service company (ESCO) guarantees that the improvements will generate energy cost savings sufficient to pay for the project over the term of the contract. After the contract ends, all additional cost savings accrue to the school district.

Ms. Thompson introduced Ms. Sue Pierce, Director of Facility Planning, who gave a presentation on performance contracting and reviewed the following:

- Participants in the process
- Key elements of the performance contract
  - Procurement
  - Project Development (IGA)
  - Financing
  - Measurement and Verification (M&V)
- Pros and cons of performance contracting
- Key points per ARS 15-213.01
- Third party engineer

Mr. Jahneke asked how the District would determine whether to finance the project through the ESCO or work with a finance company directly. He asked if the District would benefit because of the difference in interest rates. Ms. Thompson responded that the District would have the choice of doing an RFP, as well as, a separate request for ESCO to ensure that it was getting the best rate at that time. Ms. Thompson stated that the ESCO rate could vary and could depend on the size of the ESCO. Ms. Thompson advised that the District would also have the choice to do a contract or a lease. She stated that the type and size of a project could influence the type of financing the District would choose. Ms. Pierce added that some of the ESCOs have expertise in applying for government funding which could possibly affect the District’s decision for selecting a financing source.

Mr. Adams thanked Ms. Pierce for the presentation and appreciated that the pros and cons were presented. Mr. Adams stated he would be interested in learning about other districts’ experiences with performance contracting. Mr. Adams stated he was confident that with due diligence, the District would make the right decision regarding performance contracting.

Mr. Maza asked if other school districts were using performance contracting. Ms. Pierce responded that over 50 school districts have been using performance contracting, e.g., Glendale Union High School District, Balsz Elementary School District, Sunnyside, Winslow and Show Low. She stated that performance contracting was an opportunity for rural districts that needed mechanical improvements, but had no resources. Ms. Pierce advised that the School Facilities Board had been recommending performance contracting for the past two years because building renewal funding had not been available.

January 24, 2013
Mrs. Lambert asked the following questions:

- How long has performance contracting been available? Ms. Pierce replied that performance contracting had been available nationally since the 1970s and used by many states. Ms. Pierce advised that Arizona had performance contracting in the early 1990s, however, legislators felt that there were abuses and schools were being taken advantage of and it was revised in Arizona statute. The Arizona Revised Statute 15-213.01 has allowed performance contracting in Arizona schools since the late 1990s and more school districts have recently been utilizing performance contracting.

- If the District opted to utilize performance contracting, would the District be evaluated as a whole or look at a particular project? Ms. Pierce responded that the District would like to test one or two small projects to see if it would be cost effective for the District and then would make a decision whether to continue performance contracting with larger projects.

- If the District chose to do financing through the energy service company, would it have its own financing source? Ms. Pierce replied that many of the energy service companies have banks that they work with or use investor groups.

- Would the District be responsible for maintenance of new equipment purchased, e.g., HVAC units? Ms. Pierce responded that factory warranties would cover all new equipment. If the performance contract was still in effect when the warranties expired, the District would be responsible for the maintenance.

- The presentation indicated that the third party engineer works as the owner's representative. Is the District considered the owner? Ms. Pierce replied that the District would be the owner.

Ms. Graziano asked the following questions:

- Gave an example of the District identifying a project, e.g., replacing light fixtures. If an ESCO proposed a cost of $100,000.00 to replace the light fixtures and stated the District would have $20,000.00 a year in energy savings, would the District sign a five year contract to pay the $100,000.00 cost? Ms. Pierce advised that the District would evaluate the energy cost savings to determine if it would be in the District's best interest to sign a contract with a funding source that would pay the ESCO.

- One of the Cons listed in the presentation's Pros and Cons states "Lack of owner's expertise in energy savings verification and cost control". Would the District receive an energy savings report? Ms. Pierce responded that the ESCO is required, by law, to provide an annual report, however, the District would be able to request a report at any time. Ms. Pierce stated that this was a general statement and not particularly applicable to the Washington Elementary School District because it had been monitoring energy savings at each site for several years.

- Will the third party engineer be someone currently employed by the District, subcontracted out according to each project, or a new employee hired for the position? Ms. Pierce replied that the third party engineer would be a consultant hired to represent the District to handle every step in the performance contracting process.

- Do we pay the third party engineer until the project is completed or pay them through the term of the contract? Ms. Pierce advised that the third party engineer would have to evaluate the annual energy savings reports for the length of the contract. She stated that the average cost of measurement & verification (M&V) is 3% of guaranteed savings for the life of the contract.

January 24, 2013
• If an ESCO designs and constructs a project, is the District obligated to sign a contract? Ms. Pierce responded that an ESCO would visit a potential project site and make an evaluation of the feasibility of the project at no cost, nor contractual obligation, to the District.

Mr. Adams asked the following questions:
• How would the District identify a potential energy service company? Ms. Pierce replied that before the District spent a lot of staff time identifying a potential project, it would need the Governing Board’s direction whether to pursue performance contracting or not. If the Governing Board wished the District to utilize performance contracting, it would prepare a plan on how to proceed and present a recommendation to the Board.
• If the Governing Board was receptive to do an investigation to see if the project was worth the time and effort, would the District select an ESCO? Ms. Pierce responded that the District would prepare a strategy to engage an ESCO and present it to the Governing Board.
• How would the District engage an ESCO? Ms. Pierce replied that the procurement could be through various means, e.g., an RFP, state contract, S.A.V.E., or other cooperatives.

Mr. Maza asked Dr. Cook if the appropriate next step would be to have an action plan for a given project presented to the Governing Board on a future Governing Board agenda. Dr. Cook responded that the purpose of presenting the concept of performance contracting to the Governing Board was to accomplish energy savings projects without up-front capital costs and without allocating bond dollars for them. Dr. Cook advised the Board that if they wanted a plan before a project was identified, they could direct the District to do so. She stated it would be helpful to know the Board’s desire so the District could proceed as directed.

Mr. Adams advised he would like to have a comparison showing the cost to the District using bond dollars for a project versus using an ESCO through performance contracting. Mr. Adams stated he realized this was a way to save bond dollars, however, was concerned that it could cost the District more money utilizing Performance Contracting. Mr. Adams stated that he was confident that the District would use due diligence to arrive at the right decision.

Mr. Maza stated that the Governing Board members had expressed their opinions regarding Performance Contracting and believed that the District’s administration knew what direction the Board wished to take. He said he looked forward to seeing recommendations on future agendas.

IV. FUTURE AGENDA ITEMS
Ms. Graziano asked if there were any policy changes due to last year’s legislative session.

V. GOVERNING BOARD AND SUPERINTENDENT ACKNOWLEDGMENTS
Ms. Graziano acknowledged the Acacia Elementary School teachers for their successful attendance at the Title I Conference and was pleased that it was a worthwhile experience.

Mr. Adams acknowledged the District for hosting the event to thank the vendors who donated iPads.

January 24, 2013
Mr. Jahneke acknowledged the Washington Education Foundation’s annual Bowl-A-Thon.

Dr. Cook acknowledged Cathy Thompson and her team of volunteers, e.g., Carol Donaldson, Natalie McWhorter, Jill Hicks, for the vendor appreciation reception buffet which had no cost to the District.

Dr. Cook thanked Ms. Sue Snyder for filling in for Joyce Shiota in her absence.

VI. **CALL FOR EXECUTIVE SESSION**

Call for Executive Session: Pursuant to A.R.S. §38-431.03 – A.5

It was recommended that the Governing Board establish an Executive Session to be held immediately during a recess in the Regular Meeting for:

WASHINGTON ELEMENTARY SCHOOL DISTRICT No. 6

TO: Governors Board

FROM: Dr. Susan J. Cook, Superintendent

DATE: February 14, 2013

AGENDA ITEM: *Issue RFPs for Specified Services – Auditing Services and Banking Services

INITIATED BY: Howard Kropp, Director of Purchasing

SUBMITTED BY: Cathy Thompson, Director of Business Services

PRESENTER AT GOVERNING BOARD MEETING: Howard Kropp, Director of Purchasing

GOVERNING BOARD POLICY REFERENCE OR STATUTORY CITATION: BBA, DJE and ARS 15-213

SUPPORTING DATA

Funding Source: Various
Budgeted: Yes

The purpose of requesting authorization to issue request for proposals (RFPs) is to obtain qualified firms to provide specified services required by the District. In this case, it is not practical or advantageous to procure these services by competitive sealed bidding because a bid does not allow the District to use a contract other than a fixed-price type, conduct oral or written discussions with offerors concerning technical and price aspects of their proposals, afford offerors an opportunity to revise their proposals, nor allow the District to compare the different price, quality, and contractual factors of the proposals submitted and award a contract in which price is not the determining factor.

A multi-term contract is recommended for each of these procurements. In accordance with School District Procurement Rules R7-2-1093, it is determined that:

1. The estimated requirements cover the period of the contracts and are reasonable and continuing.
2. The use of the subsequent multi-term contracts will serve the best interest of the school district by encouraging effective competition or otherwise promoting economies of scale in school district procurement.
3. If monies are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal period, the contract shall be canceled and the contractor may only be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the materials or services delivered under the contract or which are otherwise not recoverable. The cost of cancellation may be paid from any appropriations available for such purposes.

SUMMARY AND RECOMMENDATION

It is recommended that the Governing Board authorize the issuance of RFP No. 13.007 for the solicitation Auditing Services, and RFP No. 13.008 for Banking Services.

13.007, Auditing Services
The purpose of this Request for Proposal is to obtain a Certified Public Accountant or Public Accountant to conduct financial and compliance audits of financial transactions and accounts kept by or for Washington Elementary School District.

13.008, Banking Services
The purpose of this Request for Proposal is to enter into a contract with a vendor to perform banking services on behalf of the District. These services are necessary in order to reconcile the trust funds, general funds, cafeteria funds, and student activity funds.

AGENDA ITEM: *Annual Intergovernmental Cooperative Purchase Agreements with the State Procurement Office (SPO), Strategic Alliance for Volume Expenditures (SAVE) and 1 Government Procurement Alliance (1GPA)

INITIATED BY: Howard Kropp, Administrator of Purchasing
SUBMITTED BY: Cathy Thompson, Director of Business Services
PRESENTER AT GOVERNING BOARD MEETING: Howard Kropp, Administrator of Purchasing
GOVERNING BOARD POLICY REFERENCE OR STATUTORY CITATION: A.R.S. 11-952; A.A.C. R7-2-1191-R7-2-1195

SUPPORTING DATA
Funding Source: Various
Budgeted: Yes

The Purchasing Department is recommending authorization to utilize the contracts presented for anticipated purchases in excess of the bidding threshold. No school or department can spend more than is budgeted without prior approval from the Finance Department. Schools and departments budget for goods or services without a particular vendor in mind.

Presented is a list of Intergovernmental Cooperative Purchase Agreements related to the Purchasing Department previously awarded by the Governing Board.

A.R.S. 11-952 and A.A.C. R7-2-1191 through R7-2-1195 authorizes and governs intergovernmental procurements. A school district may either, participate in, sponsor, conduct, or administer a cooperative purchasing agreement for the procurement of any materials, services, or construction with one or more public procurement units in accordance with an agreement entered into between the participants. By participating in a cooperative purchase, public entities that bid common items/services can obtain economy of scale pricing and best value and reduce administrative duplication of cost and effort for all participating public entities.

Copies of the contracts are available for review in the Purchasing Department. The Purchasing Department follows a process to perform due diligence on every cooperative contract prior to making a recommendation for award.

SUMMARY AND RECOMMENDATION
It is recommended that the Governing Board approve the Intergovernmental Cooperative Purchase Agreements and contract purchases with State Procurement Office (SPO), Strategic Alliance for Volume Expenditures (SAVE) and 1 Government Procurement Alliance (1GPA).

SUBMITTED BY: Mike Kramer, Director of Maintenance and Capital Projects
PRESENTER AT GOVERNING BOARD MEETING: Mike Kramer, Director of Maintenance and Capital Projects

GOVERNING BOARD POLICY REFERENCE OR STATUTORY CITATION: BBA

SUPPORTING DATA

APS is requesting that the District grant an easement for the purpose of providing electrical service to the transformer that will power the cell tower at Lookout Mountain Elementary School. The easement is non-exclusive and will not affect the continued use of the property by the school. The requirement that no buildings, other structures, or trees be placed within the limits of the Easement without the prior consent of APS as a result of the installation of underground electrical lines will not impact the use of this area by the school. In addition, it has been determined that such restrictions will not impact the future operation of the school.

The required community meetings have been held as well as the City of Phoenix Zoning Division granted approval on January 17, 2013. There were no appeals following the approval, therefore, the easement is now brought to the Governing Board for action.

A copy of the easement request and location are attached. There are no costs to the District for the use of the easement.

SUMMARY AND RECOMMENDATION

It is recommended that the Governing Board approve the APS Easement request for the proposed installation of underground electrical service to the transformer that will power the cell tower at Lookout Mountain Elementary School and authorize the Superintendent to execute the necessary documents on behalf of the District.

UTILITY EASEMENT

WASHINGTON ELEMENTARY SCHOOL DISTRICT NO. 6, an Arizona Public School District, (hereinafter called “Grantor”), is the owner of the following described real property located in Maricopa County, Arizona (hereinafter called “Grantor’s Property”):

SEE EXHIBIT “A” ATTACHED HERETO AND MADE A PART HEREOF

Grantor, for and in consideration of One Dollar ($1.00) and other valuable consideration, receipt of which is hereby acknowledged, does hereby grant and convey to ARIZONA PUBLIC SERVICE COMPANY, an Arizona corporation, (hereinafter called “Grantee”), and to its successors and assigns, a non-exclusive right, privilege, and easement at locations and elevations, in, upon, over, under, through and across, a portion of Grantor’s Property described as follows (herein called the “Easement Premises”):

SEE EXHIBIT “B” ATTACHED HERETO AND MADE A PART HEREOF

Grantee is hereby granted the right to: construct, reconstruct, replace, repair, operate and maintain electrical lines, together with appurtenant facilities and fixtures for use in connection therewith, for the transmission and distribution of electricity to, through, across, and beyond Grantor’s Property; install, operate and maintain telecommunication wires, cables, conduits, fixtures and facilities incidental to supplying electricity or for Grantee’s own use (said electrical and telecommunication lines, facilities and fixtures collectively herein called "Grantee Facilities"); utilize the Easement Premises for all other purposes connected therewith; and permit the installation of the wires, fixtures, conduits, or cables of any other company.

Grantee is hereby granted the right, but not the obligation, to trim, prune, cut, and clear away trees, brush, shrubs, or other vegetation on, or adjacent to, the Easement Premises whenever in Grantee’s judgment the same shall be necessary for the convenient and safe exercise of the rights herein granted.

Grantee shall at all times have the right of full and free ingress and egress to and along the Easement Premises for the purposes herein specified.
Grantor shall maintain a clear area that extends 2 feet from and around all edges of all transformer pads and other equipment pads, 3 feet from and around all edges of all switching cabinet pads and a clear operational area that extends 10 feet immediately in front of all transformer, switching cabinet and other equipment openings. No obstructions, trees, shrubs, large landscape rocks, fences, fixtures, or permanent structures shall be placed by Grantor within said areas; nor shall Grantor install landscaping irrigation or sprinkler systems within said areas. Landscaping irrigation or sprinkler systems installed adjacent to the clear areas shall be installed and maintained so that they do not spray on the transformers, switching cabinets or any other equipment.

Grantor shall not locate, erect or construct, or permit to be located, erected or constructed, any building or other structure or drill any well within the limits of the Easement Premises; nor shall Grantor plant or permit to be planted any trees within the limits of the Easement Premises without the prior written consent of Grantee. However, Grantor reserves the right to use the Easement Premises for purposes that are not inconsistent with Grantee’s easement rights herein conveyed and which do not interfere with or endanger any of the Grantee Facilities, including, without limitation, granting others the right to use all or portions of the Easement Premises for utility or roadway purposes and constructing improvements within the Easement Premises such as paving, sidewalks, landscaping, and curbing. Notwithstanding the foregoing, Grantor shall not have the right to lower by more than one foot or raise by more than two feet the surface grade of the Easement Premises, and in no event shall a change in the grade compromise Grantee's minimum cover requirements or interfere with Grantee's operation, maintenance or repair.

Grantee agrees that following any installation, excavation, maintenance, repair, or other work performed by Grantee within the Easement Premises, the affected area will be restored by Grantee to as close to original condition as is reasonably possible, at the expense of Grantee; and that Grantee shall indemnify Grantor, to the extent required by law, for any loss, cost or damage incurred by Grantor as a result of any negligent installation, excavation, maintenance, repair or other work performed by Grantee within the Easement Premises.

The easement granted herein shall not be deemed abandoned except upon Grantee’s execution and recording of a formal instrument abanadning the easement.

The covenants and agreements herein set forth shall extend and inure in favor and to the benefit of, and shall be binding on the heirs, administrators, executors, successors in ownership and estate, assigns and lessees of Grantor and Grantee.

In the 2012 Legislative session, the Legislature approved SB 1009 that established A.R.S. §15-108. The Statute directs that a school district shall not endorse or provide financial or instructional program support that does not present childbirth and adoption as preferred option to elective abortion. To comply with the Statute, ASBA Policy Services proposed the revisions as noted to Policy IHAMB.

These recommended changes have been reviewed by District Legal Counsel.

SUMMARY AND RECOMMENDATION
It is recommended that the Governing Board approve the First Reading of Proposed Amended Board Policy IHAMB – Family Life Education.

FAMILY LIFE EDUCATION

Instruction in Sex Education

Grades K – 8:

- Instruction in sex education may be offered in the District in conformity with the requirements of Arizona law.

- Prior to offering sex education, the Board shall establish an *ad hoc* advisory committee with membership representative of the District's size and the racial and ethnic composition of the community to assist in the development of lessons and advise the Board on an ongoing basis.

- The Board shall review the total instructional materials for lessons presented for approval.

- The Board shall publicize and hold at least two (2) public hearings for the purpose of receiving public input at least one (1) week prior to the Board meeting at which sex education lessons will be considered for approval.

- The Board shall maintain for viewing by the public the total instructional materials to be used in approved sex education lessons within the District.

- The Superintendent shall, before recommending the offering of instruction in sex education, develop and implement regulations that meet the requirements of Arizona regulatory and statutory law.

- If sex education is offered in grades seven (7) and eight (8) the curricula shall include instruction on the laws relating to sexual conduct with a minor.

Certification of Compliance

The District shall certify, under the notarized signatures of both the Governing Board President and the Superintendent, compliance with A.A.C. R7-2-303. Acknowledgment of receipt of the compliance certification from the State Board of Education is required as a prerequisite to the initiation of instruction. Certification of compliance shall be in a format and with such particulars as shall be specified by the Department of Education.
Instruction on Acquired Immune Deficiency Syndrome and Human Immunodeficiency Virus

The District may provide instruction in kindergarten (K) through grade eight (8) on acquired immune deficiency syndrome and the human immunodeficiency virus as authorized by Arizona law.

If instruction is to be offered at one (1) or more grade levels, the Superintendent shall develop and implement regulations on such instruction that conform to Arizona law.

Promotion of Childbirth

The District shall not endorse or provide financial or instructional program support to any program that does not present childbirth and adoption as preferred options to elective abortion.

The District shall not allow any presentation during instructional time or furnish any materials to pupils as part of any instruction that does not give preference, encouragement and support to childbirth and adoption as preferred options to elective abortion.

ASBA Policy Services has recommended the deletion of the requirement in IHBCA – Programs for Pregnant/Parenting Students, for a pregnant student to notify school authorities of their status. This recommendation is made in order to respect the decision of choice to be made by the minor student and custodial parents who have legal decision-making authority.

These recommended changes have been reviewed by District Legal Counsel.

PROGRAMS FOR PREGNANT / PARENTING STUDENTS

Pregnant students should have the same educational opportunities as their peers. Such students may also need additional counseling and health services that are available through the public schools.

Pregnant students may elect to remain in the regular school program and shall not be involuntarily excluded from any part of the school program, provided, however, that reasonable safeguards are maintained both for the school's and the student's best interests.

Pregnant students shall notify school authorities of their status as soon as it is ascertained.

ASBA Policy Services has recommended the noted revision to IHBE – Bilingual Instruction/Native Language Instruction in order to conform to the language of A.R.S. 15-753 – Parental Waivers. This Statute allows the parent to request a waiver from the application of the English language education requirements and ensures that the parent will receive a “full description” of all educational materials and educational opportunities available.

These recommended changes have been reviewed by District Legal Counsel.

**BILINGUAL INSTRUCTION / NATIVE LANGUAGE INSTRUCTION**

Individual schools in which twenty (20) or more students of a given grade level receive parental exception waivers in accord with A.R.S. 15-753 shall offer classes teaching English and other subjects through bilingual education techniques or other generally recognized educational methodologies permitted by law. Where these programs are not available students receiving parental exception waivers shall be permitted to transfer to a public school in which such a class is offered.

**Prerequisites for Waiver Requests**

With prior written informed consent, provided on an annual basis, a student's parents or legal guardian may request a waiver from the application of A.R.S. 15-752 - being placed in an English language classroom. In order to apply for a waiver the parents or guardian must:

- Visit the school to apply for the waiver, and while at the school,
  - Be provided a full description of the educational materials to be used in the different educational program choices, and
  - Be provided **a full description of** all the educational opportunities available to the child.

**Parental Exception Waiver**

A parental exception waiver may be applied for if the above prerequisites have been met and at least one (1) of the following applies:

- The student already possesses good English language skills, as measured by:
  - Oral evaluation or standardized tests of English vocabulary comprehension, reading, and writing, in which the student scores:
    - Approximately at or above the state average for the student's grade level, or
    - At or above the 5th grade average, whichever is lower
• The student is age ten (10) or older, and
  
  • It is the informed belief of the school principal and educational staff that an alternate course of educational study would be better suited to the student's overall educational progress and rapid acquisition of basic English language skills.

• The student has special individual needs (physical and psychological needs above and beyond the lack of English proficiency).

• Any decision to issue a waiver based on special individual need is to be made subject to the examination, approval and authorizing signature of the Superintendent within, but not limited to, the following guidelines:
  
  o The student has already been placed in an English language classroom for not less than thirty (30) calendar days during that school year.

  o It is subsequently the informed belief of the school principal and educational staff that the child has such special and individual physical or psychological needs, above and beyond the lack of English proficiency, and an alternate course of educational study would be better suited to the student's overall educational development and rapid acquisition of English.

  ♦ A written description of not less than two hundred fifty (250) words documenting these special individual needs for the specific student must be provided and permanently added to the student's official school record after,

  ♦ A special needs review has been completed by persons knowledgeable about the student, the student's school history, the student's special individual needs, the meaning of evaluation data, and the placement options. The review shall be based upon the student's existing records, including academic, social, and behavioral records.
♦ The waiver application must contain the original authorizing signature of the school principal.

- If the student has been determined to be a student with a disability under the Individuals with Disabilities Education Act then all procedural safeguards including those relative to evaluation and the provision of free appropriate public education must be followed.

- If the student has been determined to be a student with a disability under Section 504 of the Rehabilitation Act of 1973, evaluation and such accommodations as are necessary to provide a free appropriate public education shall be provided in accord with the act.

- Teachers and local school districts may reject waiver requests without explanation or legal consequence. The existence of such special individual needs shall not compel issuance of a waiver.

- The parents shall be fully informed of their right to refuse to agree to a waiver for special individual needs.

The Superintendent shall develop procedures as necessary for implementation of this policy.

AGENDA ITEM: Intergovernmental Cooperative Purchase Agreement with 1 Government Procurement Alliance (1GPA) and their Contract with Jokake Construction for Lighting Retrofit in an Amount Not to Exceed $969,330.76

INITIATED BY: Howard Kropp, Administrator of Purchasing
SUBMITTED BY: Cathy Thompson, Director of Business Services
PRESENTER AT GOVERNING BOARD MEETING: Mike Kramer, Director of Capital Projects/Maintenance

GOVERNING BOARD POLICY REFERENCE OR STATUTORY CITATION: BBA

SUPPORTING DATA

Funding Source: Bond
Budgeted: Yes

The Purchasing Department is recommending authorization to utilize the contracts presented for anticipated purchases in excess of the bidding threshold. No school or department can spend more than is budgeted without prior approval from the Finance Department. Schools and departments budget for goods or services without a particular vendor in mind.

The Capital Project team, along with our Bond Management Consultant, the H2 Group, has identified the need for lighting retrofit projects at 15 campuses throughout the District and therefore would like to utilize a Cooperative Purchasing Agreement (CPA) with Jokake Construction through their 1 Government Procurement Alliance (1GPA) contract.

When a decision is made to use a cooperative contract rather than a District RFP or bid process, it is usually because of time efficiency. All vendors that have been awarded a cooperative contract have met school district procurement requirements and WESD has reviewed these contracts for the proper due diligence. The District has been working with the lighting projects for several months and has implemented a pilot project at Mountain Sky Junior High School to determine type of installation and acceptable cost for the other projects.

Copies of the contracts are available for review in the Purchasing Department. The Purchasing Department follows a process to perform due diligence on every cooperative contract prior to making a recommendation for award.

SUMMARY AND RECOMMENDATION

It is recommended that the Governing Board approve usage of Cooperative Purchase Agreement with 1 Government Procurement Alliance (1GPA) and their contract with Jokake Construction for lighting retrofit in an amount not to exceed $969,330.76.

AGENDA ITEM: Centralized Registration Update

INITIATED BY: Cathy Thompson, Director of Business Services

SUBMITTED BY: Cathy Thompson, Director of Business Services

PRESENTER AT GOVERNING BOARD MEETING: Cathy Thompson, Director of Business Services and Miriam Mahoney, Student Data Manager

GOVERNING BOARD POLICY REFERENCE OR STATUTORY CITATION: BBA

SUPPORTING DATA

Over the last several years there has been an ongoing concern about how Washington Elementary School District (WESD) could ensure consistent and accurate student data in order to maximize revenue based on average daily membership. We have worked to improve processes District-wide and focused on data entry reconciliation – yet with so many hands touching the data, it was difficult to ensure accuracy.

In December 2011, the Student Data Manager began discussions with other districts to see whether they were having the same issues and how they were addressing them. She learned that a few school districts in the Valley had implemented a centralized registration process where all registrations were done at one location. At the school level, student registration is just one of many functions for which the office staff is responsible. At a central registration site, registration is the main function and should lead to efficiency and accuracy. Schools should also be able to focus more on other tasks and building the relationship with the parent and student after all the required paperwork is complete.

WESD opened a central registration site on January 2, 2013. Attached is a presentation for your review that details the considerations and processes that led to this change.

SUMMARY AND RECOMMENDATION

No action required.

Agenda Item IX.A.

37.
WELCOME CENTER
(A Different Approach to Student Registration)

Presentation to WESD Governing Board
February 2013

What caused us to look into a different approach to registration?

- The need to ensure consistent processes for student data entry.
- The need to maximize revenue for the District by ensuring accurate student data uploads to ADE. With so many hands touching the data, it was difficult to ensure accuracy.
- With increased responsibilities and tasks at the school site – tried to evaluate possibilities that could reduce some of this load.
What research was done before presenting to WESD?

In December 2011 the Student Data Manager began discussions with other districts to see if they were experiencing similar issues with student data and how they were addressing them.

We learned that a few school districts in the valley had implemented a centralized registration process where all registrations were done at one location. Visits to Scottsdale Unified and Pendergast Elementary showed that a central registration process was effective for them. Tolleson Elementary also felt it was successful.

Research Discussions
(all 3 districts were in their second year)

- We called school office staff from each district and below are some comments received:

  "...frustrated in the beginning"
  "efficiency is the key"
  "System is working well now – they have worked out the kinks."
Research Findings

- Each district handles student files, school roles, and open enrollment in a different manner.
- When questioned about concerns over the community and parent reaction – all districts said there was very minimal parental disapproval or difficulties getting to the registration site. Some had even said they enjoyed registering all children at one site.

What was their experience through implementation?

How was the decision made to implement this process in WESD?

- January 2012 – Requested that a task force be convened to evaluate the feasibility of a central registration site for our district.
- February 2012 – A task force consisting of office staff, principals, and department representatives met to discuss all aspects of the idea. This group decided it would be a good idea to proceed with the concept.

How was the decision made to implement this process in WESD?

- The concept was presented to principals and office managers to solicit concerns and comments related to a central registration site. There was a general consensus to proceed.
- The task force broke into sub-groups to consider various aspects of the implementation such as communication, process development, concerns for parent transportation and how to meet the interests of other departments including health services, nutrition services, and special services.
How was the decision made to implement this process in WESD?

- All information was presented to the Administrative Leadership Team and Dr. Cook and it was decided to move forward with the evaluation.
- In late April, however, it was decided to only partially implement for July 2012 and plan for a full implementation in January 2013.

Moving Forward

- Hired limited staff for summer to process registrations while schools were closed. Lots of data in a short timeframe - some difficulties. This did allow us to plan more effectively for the full implementation date in January.
- When school offices opened in late July, they resumed the registration tasks until January 2 when the new center opened.
Between July and December 2012, registration center staff continued meetings with Special Services, Social Services, Search to Serve, Nutrition Services, Registration Process Committee, and the original task force to finalize procedures and communication plans.

- Staff for the center began work and intensive training on December 3.
- Flyers were sent to the social service centers and apartment buildings within district boundaries in the hopes of having students registered prior to the start of school on January 7.
- Schools communicated information about the center in newsletters, on marquees, flyers outside their offices, and phone messages during the month of December.
Finally Open!!!

- The Welcome and Registration Center opened on January 2 in the previous home of the New Beginnings Academy near Cholla.
- Registrations were processed for 64 students to start on Monday, January 7.
- During the month of January the center has processed registrations for over 500 students including those new to the district and those moving between district schools.

Where are we now?

- Change is always a challenge, but schools have been working with registration center staff to perfect processes as needed.
- During busy times, nursing staff is available to assist with the review of immunization records.
- During the first week after break, school office staff also assisted for a few hours each at the center to help manage the large number of customers.
Where are we now?

- Computers are available at the center for parents to complete online lunch applications.
- Still working on the best solution for the responsibility of records requests and bus passes.
- Still need to determine how to best meet the special needs of some of our students – identification of those needs between the registration center and arriving at the school site.

SUPPORTING DATA

Governing Board Member, Clorinda Graziano, requested an update on the work of the Planning and Steering Council regarding student travel. Student out-of-county and out-of-state travel has been the focus of multiple study teams, dating back to 2004. Previous areas addressed included procedures, forms, approval processes and procurement, which have all been reviewed, edited, and implemented over the past ten years. More recently, the Planning and Steering Council formed a sub-committee to examine the single focus of the utilization of a travel agency vendor for student out-of-state travel. The following report provides an interim update of their tasks to date and offers further steps in the process that need to occur.

History

The opportunity for Washington Elementary School District students to travel beyond their local school, city, and state boundaries for learning and performance activities has long been an honored and supported tradition. The act of planning the student trips, implementation of those plans, and meeting the fiscal parameters of student travel can be a complex and time consuming process for staff.

Over the past years, various study teams have addressed issues that have arisen from traveler feedback, legal procurement requirements, and/or the application process itself to secure Governing Board approval. One such study team met four years ago to review the forms, steps of planning and requesting permission for student travel, as well as guidelines for local and out-of-county travel to support and/or align with the increased student academic

accountability. An additional study team met two years ago to create timelines and guidelines for the steps for student travel to be placed on Governing Board agendas for final approval. These various study teams were composed of teachers, principals, office managers, and district office personnel, depending on each study team’s specific purpose.

**Current Status**

The Planning and Steering Council is revisiting the current protocol that requires all out-of-state student travel to utilize a travel agency vendor. A study team was organized composed of teachers, program coaches, Administrator of Professional Development, Director of Curriculum, Director of Business Services, Purchasing Manager, and the Assistant Superintendent for Administrative Services. The study team members agreed to utilize the Interest-Based Process to reach their final recommendation/s, and set the norms for the group’s work.

Over the course of multiple meetings, the team has participated in the development of the story pertaining to the required use of a travel agency vendor for out-of-state student travel. The members then brainstormed and reached consensus on the following interests that they believed needed to be considered when discussing any future recommendations:

- Student and staff safety
- Cost effectiveness
- Systemic standardization of processes
- Travel vendor effectiveness and accountability
- Process effectiveness pertaining to time and procedural sequence
- Emergency liability, procedures, and resolutions
- Legalities and compliance with all laws and mandates

Currently, the study team is in the process of surveying users (teachers) who have conducted out-of-state student travel since 2010. Also, the study team has requested further clarification from the travel agency vendor pertaining to the services that are provided to staff who are planning student travel. When all processes have been completed, the study team will examine the benefits and disadvantages of utilizing a travel agency vendor, as well as conduct a benefit analysis.

The study team has one recommendation that they will bring forth, independent of any other final recommendations. There is a need to provide training on student travel processes, guidelines, services, and timelines for any staff member considering planning out-of-state student travel. Training has been provided on a one-to-one basis, but not on a group basis. Due to the complexity of the process and the enormity of the need for student safety and staff time, the study team believes this should occur without delay.

Governing Board Update
February 14, 2013

History

- Student out-of-state travel is a time-honored tradition
- Various issues have been addressed over the past 10 years:
  - Procedures
  - Approval processes
  - Procurement
  - Forms
  - Alignment of trip purposes to student academic accountability
  - Timelines for submission of Governing Board approval
Current Status...

- Study team composed of teachers, program coaches, Director of Curriculum, Purchasing Administrator, Director of Business Services, Administrator for Professional Development, and the Assistant Superintendent for Administrative Services

- Purpose: to review the requirement that a travel agency vendor must be utilized for all student out-of-state travel

- Utilizing the Interest-Based Decision-Making Process

Identified Interests:

- Student and Staff safety
- Cost effectiveness
- Systemic standardization of processes
- Travel vendor effectiveness and accountability
- Process effectiveness pertaining to time and procedural sequence
- Emergency liability, procedures, and resolutions
- Legalities and compliance with all laws and mandates
Gathering Feedback

- Principals
- Teachers who have traveled with students over the past three years
- Planning and Steering Council
- Administrative Team Members

Next Steps...

- Analyze feedback gathered
- Develop a Benefits/Disadvantages model based on feedback and aligned to the interests identified by the study team
- Conduct a cost benefit analysis
- Bring final recommendations to the Planning and Steering Council
One Recommendation...

Teachers attend training prior to beginning the planning process for student out-of-state travel.
