

Welcome back to School!

My name is Adam Kohn and I am going to be your child's fifth grade teacher! This is my seventh year here at Sahuarro, and I am so excited to be back in fifth grade! I love teaching and am so excited about this school year!

Before I was a teacher, I was in the medical profession for 8 years. I have also started three companies, one of which was a company that taught CPR and First Aid! Teaching lets me share my passion for learning with my students and have fun with them every day. It also lets me spend time with my family on the weekends and during the summer.

I love SCUBA diving, science, photography, traveling, and all kinds of animals. I enjoy spending my free time at local zoos, aquariums, and museums. I am also a huge fan of technology! This year, students will be using technology to do much of their classwork!

My preferred methods of contact this year will be Email and ClassDojo. I am available to meet with you most days before school and by appointment after school. You can contact me by email at [adam.kohn@wesdschools.org](mailto:adam.kohn@wesdschools.org). I am looking forward to an exciting year of learning!

I look forward to meeting you at Meet the Teacher night, on Thursday 8/4 from 5PM-6:30PM. I am looking forward to working with your student this school year!

Sincerely,  
Mr. Kohn

**Adam Kohn**
